

# NATIONAL AGREEMENTS ARE ABROGATED

## RAILROAD LABOR BOARD GIVES OUT DECISION THURSDAY

Sixteen Principles Are Outlined To Serve As Foundation For Any Rules Which May Be Agreed Upon--Affects All Employees Except Those In Train Service.

(By The Associated Press)  
CHICAGO, April 14.—National agreements defining working conditions for employees on all railroads formerly under the federal railroad administration were today ordered abrogated, effective July 1, 1921, by the railroad labor board.

The board called upon the officers and system organizations of employees of each railroad to select representatives to "confer and to decide" as much of the rules controversy as possible.

"Such conferences shall begin at the earliest possible date," the decision said.

While the decision did not specifically say so, members of the board said that all disputes as to rules and working conditions automatically were referred back to individual conferences between each individual road and its employees. This method of procedure has been sought by the railroads whereas the labor side had favored a national conference between representatives of all roads and all unions.

The decision affected all railroad employees except those in train service who are under separate agreements between the individual railroads and the four big brotherhoods.

In connection with the conference negotiations the board laid down a set of 16 principles which are to serve as a foundation for any rules which may be agreed to in the conference. The present general rules hearing before the labor board will continue until both sides have completed their testimony following which the board will promulgate such rules as it determines just and reasonable as soon after July 1, 1921, as is reasonably possible and will make them effective as of July 1, 1921.

The sixteen principles outlined by the board were drawn up by Henry T. Hunt of the public group and upheld the right of the employees to organize for lawful purposes the right of employees to negotiate thru representatives of their own choosing, the right of seniority and the principle of the eight hour day. It was specified that "eight hours' work must be given for eight hours' pay." Espionage should not be practiced by either side, the decision said and employees' representative employees should have the right to make an agreement applying to all employees in the craft or class of the representatives.

The sixteen points are outlined. "1. An obligation rests upon management, upon each organization of employees and upon each employee to render honest, efficient and economical service to the carrier serving the public.

"2. The spirit of cooperation between management and employees being essential to efficient operation both parties will so conduct themselves as to promote this spirit.

"3. Management having the responsibility for safe, efficient and economical operation of the railroads will not be subservient of necessary discipline.

"4. The right of railway employees to organize for lawful objects shall not be denied, interfered with or obstructed.

"5. The right of lawful organization to act toward lawful objects thru representative of its own choice, whether employees of a particular carrier or otherwise, shall be agreed to by management.

"6. No discrimination shall be practiced by management as between members and non-members of organizations or as between members of different organizations nor shall members of organizations discriminate against non-members or use other methods than lawful persuasion to secure their membership.

"7. The right of employees to be consulted prior to a decision

## SEVERAL CHANGES SHOWN IN LINEUP ON TARIFF BILL

Bourke Cochran Contributes Dramatically to Debate

## FORDNEY MAKES EMPHATIC DENIAL

(By The Associated Press)

WASHINGTON, April 14.—Several changes in the lineup in the house on emergency tariff legislation since the Fordney measure was before the last congress were revealed today during general debate on the Young emergency bill, which includes anti-dumping and foreign exchange provisions. A vote is expected by supporters before adjournment tomorrow night.

For five and a half hours the debate proceeded today and was marked by a dramatic contribution on the part of Bourke Cochran, Democrat, New York.

Asserting that danger lies ahead in a policy of attempting to cure all the country's ills by legislation, Mr. Cochran predicted "long lines of famishing men and women in front of soup houses" were present conditions pass. "I apprehend Mr. Cochran said, that when those lines do form as they surely will, they will not stand in silent submission as they have done before. I apprehend something more menacing, more dangerous to civilization too our government and to us."

Pled for unified stand  
Mr. Cochran's speech followed pleas of Chairman Fordney, Representative Young of North Dakota and other Republicans for a unified stand by their party in support of the measure. During the debate, Representative Treadway, Republican, Massachusetts, who opposed the bill in the last congress announced his support this time, explaining there were "several reasons why a man who voted against it before could vote for it now, chief among them being the guiding advice of our great leader the president."

The Texas delegation showed a split again over the resolution of the Democratic caucus yesterday. Representative Gardner, who he voted for the bill last session was in charge of the opposition today as floor manager while Representative Hudspeth spoke at length in support of the bill.

Mr. Fordney took occasion to reply to statements in the minority report which he said did him "very great injustice."

"I never owned a dollar's worth of sugar stock in my life," Mr. Fordney explained heatedly. "It is from principle that I support this measure."

## CAPABLANCA WINS CHESS GAME FROM LASKER

Havana, April 15.—Jose R. Capablanca, the Cuban expert won the 11th game in the international chess match shortly after midnight when Dr. Emanuel Lasker, the German master resigned. Dr. Lasker failed to make his 48th move. This is the third game won by the Cuban player.

## WEATHER REPORT

(By The Associated Press)

Illinois: — Unsettled weather Friday and Saturday with probably rain; colder in west and south portions Saturday.

Temperatures

|   |       |

| Winnipeg  | 32 42 |

BRITAIN ONCE MORE IN THE THROES OF A MINERS' STRIKE  
In view of the present crisis in Great Britain, where troops have been mobilized for use in case the rioting of striking mine workers becomes more serious, this interesting picture of a former British mine strike should prove of general interest. This is a typical miner's cottage in the Newcastle District. Insert, one of the miners.

## WISCONSIN ROADS TO BE INSPECTED BY ILLINOIS MEN

Governor Small and Legislators Leave for Short Trip

## GOVERNOR WILL TALK AT MADISON

(By The Associated Press)

ROCKFORD, Ill., April 14.—Governor Len Small, accompanied by about fifty state legislators and the Illinois Good Roads commission, arrived here tonight as guests of the Rockford Motor Club, preparatory to a two day inspection of Wisconsin highways as guests of the Wisconsin Good Roads Commission.

Twenty seven of the officials headed by State Senator Albert Hicks, attended the boxing match at Camp Grant, the governor and the remainder of the party attending a theater. The party was met at the train by Major General George Bell, Jr., and his military aid and the local reception committee. The governor is the house guest of Lieutenant Governor Fred E. Sterling.

The party will leave the city at 8 o'clock tomorrow morning going to Camp Grant where the governor will be received with military honors then proceeding to Beloit, Wis., where they will meet Governor Blaine, a party of Wisconsin legislators and state road officials. About 200 Rockford motorists will accompany the delegation.

They will lunch at Elkhorn, Wis., arriving at Madison in time for dinner given by the Wisconsin Automobile association at which Governor Blaine will preside and Governor Small will be the chief speaker.

Look Over Wisconsin Roads  
The purpose of the trip is to enable the governor and members of the Illinois legislature to gain first hand information with respect to Wisconsin road building to apply to Illinois' road building program.

In an interview tonight, Governor Small expressed his confidence that the backbone of high prices in road building in Illinois had been broken, in evidence of which he said:

"On February 13, we rejected bids for 15 miles of concrete bond issue roads in Kane county because of high prices. At the same time and for the same reasons we rejected bids for bond issue grading and bridge construction work in twelve Illinois counties. We told the contractors that when they were ready to be reasonable we would go ahead with our program."

"Ten days ago bids were again received for the 15 miles of road in Kane county and the price had dropped to \$29,975 per mile, or a saving of thousands of dollars to the state. Last Tuesday we opened bids for the same road grading and bridge construction on which we rejected bids February 13. Prices bid for grading had dropped 17 per cent and bridge construction 11 per cent.

## SENATOR SPENCER TELLS OF LESSONS LEARNED FROM WAR

Says Should Teach Us to Keep Free of All Leagues

DELIVERS ADDRESS AT BOSTON

BOSTON, April 14.—The need of patriotic propaganda for Americans, realization that the United States is inseparably connected with the rest of the world and the necessity that we keep free from entangling alliances were cited today by Senator S. P. Spencer of Missouri as among the lessons learned from Germany as a result of the war. The senator was a luncheon guest of the chamber of commerce.

The pistol shot in June, 1914, that killed the Archduke of Austria, he said, taught us "to keep ourselves absolutely free from any premature agreements of leagues that might in honor compel us to act in the future in violation of our judgment and conscience at the time, or to protect boundary lines in Europe; the righteousness of which we seriously doubted."

## GOVERNOR SMALL GRANTS REPRIEVE TO TONEY LOPEZ

Gives Convicted Murderer Thirty Days Lease on Life

SPRINGFIELD, Ill., April 14.—Toney Lopez will not hang tomorrow, Governor Small granted him a thirty day reprieve this morning, but left instructions that it should not be announced until after a P. M. Lopez will be removed tonight from the death cell in the Cook county jail leaving behind him both Sam Ferrara and Joe Costanzo, who were convicted with him.

This reprieve for Lopez was announced from the governor's office after Governor Small earlier in the day had indicated that clemency for Lopez had been refused. Upon leaving his office to start upon a trip that will take him into Wisconsin tomorrow morning Governor Small said he had taken action in the three hanging cases before him in line with recommendations of the divisions of pardons and paroles.

The recommendation of that division as announced tonight does not grant Lopez commutation, but merely gives him a thirty days "additional lease on life, to present evidence which his attorneys say, will show him innocent.

Both Ferrara and Costanzo sentenced with Lopez, will hang tomorrow morning. They admitted their guilt and made no attempt to obtain clemency. Lopez on the other hand, has persistently asserted his innocence. They were all convicted of killing Antonio Verchitto, in an Italian grocery store.

It was announced that most careful consideration had been given the case by the entire division of pardons and paroles together with the governor, lieutenant governor and Senator Jewell, president pro-tem of the senate, who will become acting governor tomorrow morning when the governor's party crosses the state line into Wisconsin.

## FRENCH NOTE IS SATISFACTORY TO ADMINISTRATION

Recognizes Principles as Laid Down by Secretary Hughes

## UNPUBLISHED FRENCH NOTE REFERRED TO

(By The Associated Press)

WASHINGTON, April 14.—The French reply to Secretary Hughes notes regarding mandates, the only one received from any of the four great powers addressed, was made public simultaneously in Washington and Paris. It is in the form of a letter from Premier Briand to Ambassador Wallace and is of a preliminary nature, M. Briand stating that a full response could not be made "until after an understanding has been reached between the governments of the four interested powers at the next meeting of the supreme council of the allies."

The reply was issued without comment, but administration officials said it was very agreeable to the United States and was couched in diplomatic language tantamount to a recognition of the principle laid down by Mr. Hughes.

The French premier deals directly with the Japanese mandate over the island of Yap, but does not advert specifically to the American claim to equal rights with other principal allied associated powers in the disposition of former German overseas possessions.

Will Try to Find Solution

With regard to Yap, M. Briand says that "when this question comes before the supreme council the representatives of France broad the examination thereof with the greatest desire to find a solution which will serve every satisfaction to the United States. M. Briand reminds Ambassador Wallace that France has done all in its power to lend its aid to the American government in this matter.

Reference also is made to an unpublished French note to the United States regarding Yap in which France confirms that meetings of the supreme council before the mandate for the Northern Pacific Islands was awarded to Japan, reservations regarding the island were made by President Wilson and by Secretary Lansing. That note also says the reservations were made in the presence of the representative of Japan, Baron Makino, and that consequently the Japanese government was cognizant of the American reservations.

The previous French note from which M. Briand quotes was in reply to Secretary Colby's communication last February to the council of the league of nations regarding the council with the statement that Mr. Colby's had been referred to the allied supreme council. There the matter rested until Secretary Hughes restated the position of the American government on April 4.

The assumption here both in official and diplomatic circles has been that exchanges were in progress between the four powers regarding Mr. Hughes communications. M. Briand now indicates that the four powers will seek to reach an accord when the supreme council has its next meeting.

## COLOMBIAN TREATY BRINGS ON CAUSTIC DEBATE IN SENATE

Pomerene Says That Justice Demands Compensation to That Country—Senator Borah Says Friendship of a Nation Cannot be Purchased—Regards Treaty as Insult

(By The Associated Press)

WASHINGTON, April 14.—Payment to Colombia of \$25,000,000 as provided in the Colombian treaty was advocated in the senate today as a measure of justice and a moral obligation and attacked as without justification.

Senator Pomerene of Ohio declared justice demanded that Colombia be compensated for the losses of Panama thru a course of events in which participation by the United States, he asserted, could not be defended either in the sight of God or man.

Ratification was urged by Senator Knox, Republican, Pennsylvania, on the other hand, because the United States was "morally bound to compensate Colombia."

"Not for what she lost but for what we gained," he said.

Taking issue with Senator Pomerene, the Pennsylvania senator asserted the course of the United States in the events attending the revolt of Panama "squared to our rights and duties and to the governing rules and principles of international law."

Declaring ratification would put "the brand of shame" on Theodore Roosevelt, Senator Borah, Republican, Idaho, declared, "the moving force" behind Panama's "revolt from Colombia was not Theodore Roosevelt, John Hay or the United States but the people of Panama, who he said despite a Colombian dictatorship were striving to exercise the independence they declared in 1861.

"It is difficult for me to understand how we can purchase the friendship of any nation," Senator Borah continued in referring to the argument that ratification would bring about cordial relations between the United States and Colombia.

"Such action would be an insult to any self-respecting nation. Mr. Borah suggested if the United States was seeking to obtain Colombia's friendship thru the \$25,000,000 payment that it be expressly written into the pact. Detailing examples of the treatment accorded Panama by Colombia prior to the revolution of 1903, Senator Borah declared "we are hastening to conclude a treaty with Colombia while we draw back from recognizing soviet Russia and yet I dare anyone to cite any crime committed in Russia under the soviet regime not duplicated in Panama under Colombia's dictatorship."

Defending the course pursued by the United States government under President Roosevelt, Mr. Borah denied that the United States aided in any way bringing about the separation of Panama from Colombia.

"The United States was not a conspirator," Senator Borah continued. "Roosevelt did not become a common adventurer. John Hay was not a liar. We owe Colombia nothing. The brand of shame should not be put on Roosevelt and for the nation a statement made of dishonor and a confession of crime."

This doll will be on exhibition at the Shreve drug store Saturday at 2 o'clock. The person bringing in the largest sum over \$10 will become the owner of the doll. Coupon books are being used in this interesting contest.

TEACHERS OF I. S. D. HEARD FINE ADDRESS  
The April meeting of the Teachers Association of the School for the Deaf was held in Miss Jordan's studio Thursday afternoon with Miss Amy DeMotte presiding. After a brief business session Rev. E. L. Fischer gave an interesting and much appreciated address on service. Because of his own experiences in teaching work, the speaker was able to bring much of vital interest to his hearers.

A pleasant social hour followed and tea was served by Miss Ruth Kingsley, assisted by other members of the faculty.

IOA COUNCIL IN REGULAR MEETING  
Iona Council No. 97 Degree of Pochontas held its regular meeting in the Red Men Wigwam Thursday evening with a large attendance. Following the regular business session the good of the order committee composed of Mesdames Hayes, Fanning and Proffitt served a banquet which was greatly enjoyed.

There was a large attendance and plans were formulated for a campaign for members to be inaugurated in the near future.

## CONVICTION OF ALLEGED I. W. W. MEMBERS UPHOLD

Supreme Court of the State of Washington Gives Decision

OLYMPIA, Wash., April 14.—

The state supreme court today handed down a decision upholding the conviction of seven alleged I. W. W. members, convicted of second degree murder in connection with the Centralia armistice day massacre and refusing to grant the men a new trial.

The decision will result in transferring the convicted men from the county jail at Montesano, Washington, where they were confined, to the state penitentiary to begin serving their sentences of from 25 to 40 years.

Pratt Smith, O. B. Bland, Ray Becker, James McInerney, Barnett, Bert Bland and John Lamb were the men convicted of killing Warren O. Grimm, shot to death on the streets of Centralia, with Dale Hubbard, Ben Castgranda and Arthur McElfresh on Armistice Day in 1919.

Education as presented in the Red Cross survey will be the theme for discussion at a community meeting soon to be held. That is one of the most vital subjects Jacksonville has, for education is possibly the largest "business enterprise" of Jacksonville. Not long since a public school had in preparation a poster for a contest, comed the appropriate slogan "Live and Learn in Jacksonville."

Attorney General Dougherty says that he is much pleased with the result of the warning issued about conspiracies which retard building. This seems a trifle early to judge just the effect of the warning, but no doubt those for whom the warning was intended have some sense of the sincerity of the department of justice and the full intention that exists to see that the law is observed.

The future offers no fear of a lack of fuel in Illinois. The yearly output of coal is about 100,000,000 tons and now Professor Parr of the University of Illinois and formerly of Illinois College, declares that scientific work is under way which will at no distant date prevent immeasurable smoke waste and thus greatly increase the fuel supply.

Let us hope that when the losses from smoke are prevented that various expenses in mine operation can be reduced, with a corresponding and just decrease in prices to the burdened consumer.

Ordinarily not a vast amount of importance is attached to the trips of a governor and a large body of legislators. But this statement does not apply to the expedition into Wisconsin in which Gov. Small and Illinois legislators are now engaged.

The purpose is to gain some first hand information about road building in Wisconsin.

where a great deal of work has been successfully done. The course followed by Gov. Small in letting bids for road construction has resulted in reductions of from 11 to 20 per cent within a few weeks' time. The contractors and material men, along with the public, have been thoroughly convinced of the sincerity of the governor's purpose to get full value for the dollars expended in road building operations.

The Harding administration has been in authority scarcely a month but already it has been the recipient of sundry notes from nations of the old world, all disguised in various ways but having for their real purpose the enhancement of the writers' political or material prestige at the expense of the dignity, independence, or wealth of the United States.

Other nations have sought similar ends through their accredited representatives at Washington, while still others have sent special emissaries to plead their cause. All of those communications, either written or oral, have had to pass under the coldly analytical eye of Secretary of State Hughes, who has applied to them the test of American welfare. "No entanglements" has been the guiding spirit in dictating their replies.

## MENTAL DEFECTS IN SCHOOL CHILDREN

"The prevention and correction of mental defectiveness," says the U. S. Public Health Service, "is one of the great public health problems of today. Its influence is continually cropping out. For instance, recent studies have shown that feeble mindedness is an important factor in prostitution, and that a marked proportion of juvenile delinquency is traceable to some degree of mental deficiency in the offender."

A recent statewide survey in Oregon shows more than 75,000 men, women and children out of a total population of 783,000 are dependents, delinquents, or feeble minded, and that more than 500 school children out of a total enrolled school population of 32,500 are more or less mentally deficient. The latter fact is significant when it is remembered that the condition of the children of today is the best possible index to the condition of the community of tomorrow.

"The Oregon figures are considerably lower than the average shown by the draft examination, indicating that they are certainly not higher than those that would be obtained in other states."

Dillard Fitzsimmons was a city caller from Woodson yesterday.

## Deaths

### Ramsey

The death of Mrs. Ida Ramsey occurred at a local hospital at 5 o'clock Wednesday afternoon. The deceased, who was fifty-five years of age, was a resident of Stonewall, Okla. The remains were removed to the Reynolds mortuary and later will be sent to Oklahoma for interment. A sister of the deceased is expected to arrive today to accompany the remains.

### Collins

Miss Josephine Collins died at Our Savior's hospital at 10:30 o'clock Thursday morning after an illness of one week.

Decedent was the daughter of Patrick and Mary Collins and was born near Prentice, March 3, 1863. She resided in that vicinity until fifteen years ago when she removed with her mother to Jacksonville which was her home until death.

Her parents and one sister, Mrs. Timothy Leahy, preceded her in death several years ago. She is survived by the following brothers and sisters: Mrs. Margaret Leahy, Pleasant Plains; Mrs. Minnie Newell, Ashland; James J. Collins, Springfield; Joseph J. Collins, San Francisco, Calif.; Mrs. Bertha Mahoney, Ashland; Edward S. Collins, Prentice.

No arrangements have been made for the funeral.

## WAYNE GARD TO TAKE WORK IN BURMA

Jacksonville Young Man Will Be Member of the Faculty of Judson College.

Wayne Gard, of the Senior class of Illinois college expects to leave late in July to take work as an instructor in Judson college at Rangoon, Burma. This institution is supported by the American Baptist Foreign Missionary society. The institution was formerly known as Rangoon Baptist college and was founded in 1872. Today it is a part of the new Burma university which the British government established.

Rangoon is the capital of Burma and is the third largest city in British Columbia. The enrollment of students is large and there is excellent work to be done along the lines of religious and general education.

## MISS SUE ELLIS REACHES 90TH MILESTONE

Today will be the ninetieth birthday of Miss Sue Ellis, who now makes her home with Mr. and Mrs. Frank Irving on Grove street. Miss Ellis is known to all of the older residents of Jacksonville and to many of those younger in years, for she has spent the greater part of her long life in this city. For a period she taught school in Meredosia and then thru a series of years was one of the instructors in the schools of Jacksonville.

For the past five years Miss Ellis has been an invalid, confined to her room. Her weakness has been borne with a fine spirit of cheerfulness which has been the wonder and admiration of those who come into daily or occasional contact with her. A number of friends of Miss Ellis have sent birthday cards and others will no doubt call upon her personally today.

## ACTION IS BROUGHT AGAINST C. & A. R. R.

A transcript of an action against the Chicago and Alton Railroad was filed yesterday in the office of Circuit Clerk Wamaker. The complainants are J. E. Osborne and Charles Sullivan, as administrators of the estate of W. E. Osborne. The purpose is to bring before the proper state board the question of settlement for the death of W. E. Osborne, who was killed by a train at Carlville last year.

## Patrell's Majestic Cheater

on their own. No change of program daily

### TODAY

### 10th Episode of "THE FLAMING DISK"

Featuring

ELMO LINCOLN

Also a Century Comedy, "Vamps and Scamps," featuring Zip Monty and the Century Bathing Beauties, and a good western, "The Fighting Actor," featuring Art Acord.

Admission, all seats, 15c Plus War Tax

### TOMORROW

EILEEN PERCY

"THE TOMBOY"

Some picture. You know the sort of girl one commonly applies the expression, "Tomboy" to? Well, just come and see one a genuine madcap Tomboy. Also a corking comedy, "The Poor Rich Cleaners," featuring Bud Duncan.

Admission, all seats 10c Plus War Tax

## WOOD RIVER BAPTISTS MEET AT MT. EMORY

Annual Session Opened Thursday Good Attendance of Members

The Springfield Sunday school convention met with the Mt. Emory Baptist church at nine o'clock Thursday morning. The vice president, Mrs. Medora Bryant, presiding.

Devotions were led by Mrs. J. B. Osby of New Hope church, Springfield, and Mrs. J. W. Muse of Mt. Emory church, Jacksonville. Mrs. Aleatha Beck presiding at the piano.

The president, Mrs. Laura LaFayette, said: "We have met again to do what we can to extend Christ's Kingdom in the Sunday schools and to learn any new system that has been tried and proven a success by any school. We must at this session plan more help financially for education and mission work. Our colleges and mission field are much in need of money."

She appointed Mrs. Aleatha Hall of Union church, Springfield; Mrs. Emma Williams, Misses Alra Mallory and Katharine Hayden of Mt. Emory church and Miss Mabel DeFeis, of Second Baptist church, as committees on enrollment.

The secretary being absent, Mrs. Beck was elected secretary pro tem. The workers conference was filled with interest. Dr. H. Henry Serendine was elected reporter for the local papers. The address, "Primary Department Work," by Mrs. Bertha Hall was exceedingly inspiring to the primary teachers.

The afternoon session was led in devotionals by Mrs. Lucile Parks, of Zion church, Springfield; Miss Alra Mallory at the piano.

Rev. A. P. Howal, pastor of the First Baptist church, this city, gave a most interesting talk and brought greetings from his church, which was appreciated by the convention.

The annual address of the president, Mrs. LaFayette, was splendid and inspiring and was favorably discussed by several of the delegates.

The paper on "Building a B. Y. P. U.," by Miss Oliver of Pleasant Grove church, Springfield, was grand and will be open for discussion Friday.

W. C. T. U. Dorwart's, tomorrow - Biggest market since "the war." Against whiskey? Donate—patronize.

## ANOTHER HIGH HONOR FOR WOMAN'S COLLEGE

The Illinois Woman's college is in receipt of a letter from Mrs. Gertrude S. Martin, the executive secretary of the Association of Collegiate Alumnae, which reads as follows:

"I am very happy to be able to inform you that at the recent convention of the association, held in Washington, the Illinois Woman's college was placed on the accredited list of the association, an honor its graduates with degrees are now eligible to full membership in the association. This applies to former graduates as well as those graduating hereafter. This is a very unusual honor. The Association of Collegiate Alumnae was founded in Boston about thirty-four years ago by a group of women representing a half dozen colleges of the highest academic standards. The association has been very watchful of its membership and has admitted only colleges of unquestionable academic standing. This will be understood better when it is remembered that outside of the three universities of Illinois only four of the more than twenty colleges have the honor of membership.

Last fall the Woman's college had the high honor of recognition by the Association of American Universities. Both the college and its alumnae are to be congratulated on this unusual recognition of the high place which the college has attained among the educational institutions of the country.

Lynnville M. E. church market begins at 10 a. m. today, E. H. Ranson garage, South Main street. All kinds of eatables on sale.

## COUNTY BOARD SELECTS GRAND JURYMEN

Announcement was made yesterday of the list of grand jurymen for the May term of the circuit court. The members of the jury are as follows:

George Hall, Alexander; W. H. Petefish, Arcadia; William Perbix, Chapin; John T. Kershaw, Concord; C. J. Whitlock, Franklin; John McDaniel, Litterberry; E. A. Ranson, Lynnville; Vernon Baker, Murrayville; Henry L. Deppe, Meredosia; Thomas Oxley, Nortonville; A. A. Curry, Pisgah; J. H. Hubbs, Prentice; William Cleary, Sinclair; Frank H. Curtis, Waverly; Nicholas Condon, Woodson; John Shields, Sr., Frank Vieira, Elmer Henderson, Howard Stout, J. H. Dial, Harry Brinkman, Dennis Schram and L. A. Vasconcellos, Jacksonville.

The jurymen were selected by the county board of commissioners at its session yesterday.

## Births

Born Wednesday morning at Our Savior's hospital to Mr. and Mrs. Eugene E. Caldwell, a son.

## DANCES

Round and square dances, at Marquette hall, Franklin, Friday night.

## PRETTY WEDDING AT LYNNVILLE HOME

Miss Hildreth A. Watson is Bride of Lloyd W. Dahman of Franklin—Young People Will Reside Near Franklin.

The home of Mr. and Mrs. Edgar Watson in Lynnville was the scene of a very pretty wedding ceremony at 3 o'clock Thursday afternoon, when their daughter, Miss Hildreth Ann, became the bride of Lloyd William Dahman of Franklin. The impressive ceremony was witnessed by about sixty near relatives of the contracting parties.

As the wedding music from Lohengrin sounded, with Mrs. Irvin Goveia at the piano, the bride entered the parlor. The bridesmaid, Miss Lorene Watson, sister of the bride, came first followed by the bride and her father. The groomsmen were Ralph Dahman, a brother of the groom.

The bridal party stood beneath a beautiful arch, decorated with Arbor Vitae and pink phlox and bearing in the center a huge white wedding bell. Rev. L. R. Cronkrite was the officiating clergyman, the beautiful ring service being used.

The bride wore a handsome gown of pearl white crepe meteor with lace overdress, and carried a shower bouquet of bride's roses. The bridesmaid's gown was of pink crepe de chine over pink silk. She wore a corsage bouquet of pink roses.

After the ceremony came the hearty congratulations of the assembled guests and then an elegant wedding dinner was served.

The bride is the elder daughter of Mr. and Mrs. Edgar Watson and has spent all her life in Lynnville. She received her education in the schools there and later had high school training. She is a member of the Lynnville Christian church and has been very active in various departments of church endeavor. She is a young woman of charming personality and is one of the most popular of the Lynnville young people.

Mr. Dahman is the son of Mr. and Mrs. Herman Dahman, well known residents of Franklin. He attended the public schools in his home community later attending high school and Brown's Business college. He is a member of the M. E. church at Franklin. For some years past Mr. Dahman has been associated with his father in farming operations and is regarded as one of the most promising young men of the county.

Mr. and Mrs. Dahman were the recipients of a large number of handsome presents, giving evidence of the esteem of their many friends. After a brief wedding trip they will be at home on a farm a half mile west of Franklin, and will have the very best wishes of their many friends.

## Why We Are Strong for Willard

We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber Batteries.

## Engineering Skill of the World

Put this question squarely to yourself: Does any other car embody such an array of proven units? Check up the quality of the Moon unit by unit and see how the question answers itself.

See how each and every one is the product of specialists who have learned to make successfully one thing and to make it a little better than any one else. Make note of them: Continental motor; Delco starting and ignition; Timken axles; Spicer universal joints; Brown's Lip Transmission; Borg & Beck clutch; Rayfield carburetor; Exide battery; Fedders radiator—nickle silver; Warner steering gear. Everything entering into the Moon has been selected with infinite care, tested and proved by Moon engineers with one specific purpose—To make sure that quality goes right straight through every feature, upon this chassis embodying the engineering skill of the world. Moon bodies are constructed. Their excellence in finish and every detail reveals that care which can come only from forty-one years experience in oah work.

ALEXANDER WOMAN'S CLUB MET YESTERDAY

## RIALTO THEATER IS SOON TO OPEN

Buckthorpe Brothers Have Made Extensive Betterment in East State Street Play House—High Class Films Secured.

There has been a good deal of speculation for the past few days as to what was to be done with the Rialto since the Buckthorpe brothers obtained possession but that is now done away with by the specific announcement that they will open the theater Wednesday of the coming week.

The history of this theater is a varied one. It was opened on a Christmas about two years ago by Harold Johnson, who had made such a great success of the Grand Opera House. Until his death, the house played to standing room only the greater part of the time. For a while after his death the place was managed in a very efficient manner by Miss Ruth Brown, even after it had passed to other hands and until she resigned to take her place with her orchestra at the Scott Theater. For some time thereafter the place was handled by various parties in various ways until it came into the hands of the present owners who have been busy for the past three weeks in repainting and remodeling inside and out. Monday Mr. Buckthorpe visited the show centers at St. Louis and Chicago and has procured a very interesting line of pictures, returning last night to put the final touches on the building and contents.

There is no reason why this pretty little theater should not be a center for the picture loving public and if courteous attention and good pictures are any rule to go by it surely will be a success. The feature booked include some of the greatest artists in the world and some of the best dramas.

In conversation with Mr. Buckthorpe yesterday, he said that no one appreciated the efforts of Messrs. Scott and Luttrell more than he did in their efforts to please the people and at the same time protect their own interests. These men have given years to the work and study of the picture game and any one who thinks it an easy game can get all the experience he wants in a very short course. The men selling the films are old hands at the game and these men will tell you that when you think you know it, you find a new angle.

The owners of the theater have associated themselves with one of the best film buyers in St. Louis, where most of the films come from and they can assure their patrons that they have and will do all in their power to show good clean pictures. At all times either one of these gentlemen will be more than pleased to receive suggestions from any of their patrons and if you have some picture which you know to be good and which has not been shown here, tell them about it and they will do all in their power to get it for you. Everybody knows the Buckthorpes both as boys and men and you can wager they will try to please you. A full program and list of the artists will appear at a later date.

BOX SOCIAL GIVEN AT ALEXANDER SCHOOL

The box social given at the Alexander school Tuesday was a success, both socially and financially. The sum of \$125 was realized from the sale of the 22 boxes offered, and much credit for the success of the event is due to the cleverness of C. M. Strawn, the auctioneer. The prize box brought the handsome sum of \$11 and was the property of Miss Ruth Sentney.

Previous to the auctioning of the boxes the following program was presented:

Piano solo—Mrs. Harold Strawn. Selection—Jacksonville K. of P. Quartet.  
Piano solo—Mrs. Lester Gray. Reading—J. L. Suter, Jacksonville.  
Vocal solo—Mrs. K. V. Beern. Piano solo—Earl Richardson, Jacksonville.  
Selection—K. of P. Quartet.

Music—Miss Ruth Deatherage. Playlet—Miss Ruth and Ellen Deatherage and Floyd Clark.

Refreshments were served during the social hour which came after the program. The May meeting of the society will be held at the home of Mrs. Ruby Strube.

News Notes.

Mr. and Mrs. John Gay, Mrs. Earl Rexroat and W. E. Murry were among Litchberry residents who visited Springfield Wednesday.

Mrs. Laura Ray of Springfield spent Wednesday at the home of Mr. and Mrs. J. A. Henderson. Mr. Henderson has been seriously ill for a number of weeks.

Mr. and Mrs. Charles Roach entertained about sixty-five of their friends Wednesday evening at their home just east of Litchberry. Games, music and dancing made the occasion a very pleasant one for all present. Excellent refreshments were served during the evening.

Attend our Trimmed Hat Sale. 25 per cent reduction now. FLORETH CO.

CHICHESTER'S PILLS

SWIFT & CO. HAS VAST PRODUCE BUSINESS

Local Plant of Swift and Co., Carries on Extensive Business in Butter, Eggs and Chickens—This Is Quiet Time of Year at Plant.

Probably there are few people who realize the extent of the business done in the produce department of the Swift and Co., plant here in Jacksonville. It is now under the efficient management of John P. Meany. It was five years ago that Mr. Meany entered the employ of Swift and Co., and for the past two years he has been the produce department manager.

This is a quiet time of year at the plant, with just about 50 employees. In the busy summer months three times that number is employed. So it can readily be seen how important this business is among the industries of Jacksonville. The produce department handles butter, eggs and chickens. The butter fat is purchased thru a large number of agents scattered all thru this part of Illinois, and in a certain part of Missouri.

Swift and Co., have similar plants at Decatur and Mt. Vernon so that the territory is somewhat divided. The past week, 29,000 pounds of butter were made and while this is a large amount, it by no means represents the capacity of the big churns which have turned out as high as 68,000 pounds of butter in a week's time.

Butter sent to Eastern Points. The butter is packed under the Brookfield label and most of it is sent in carload shipments to eastern points. Just now the most active business at the plant is being done in eggs and eight or nine cars are being shipped weekly. The average car is made up of 400 cases, each case containing 30 dozen eggs. Most of these eggs are being shipped to cold storage plants owned by Swift and Co., and will be put on the market months hence. Some cars are going to Peoria, which is the distributing point from which the local plant later receives storage eggs. This is not the active time for chickens and only about 1,000 are on feed in a department capable of handling 20,000. The chickens all except roosters are put on feed for from 5 to 7 days after their receipt at the plant, and the records show gains in weight in the 5 to 7 days of from 25 to 35 per cent. Roosters are not fed in this way because they do not put on any additional weight.

Balanced Ration for Fowls. Based on experience, a balanced ration made up of buttermilk, ground corn, oat flour and charcoal is fed to the fowls. After

they are received on the loading platform the chickens are separated into steel wire coops, divided into four compartments. Four such coops constitute what is termed as a battery and fits exactly on a truck. Six of these batteries constitute a load. A careful record is kept of the chickens in each lot—that is, they are weighed when first placed in the coops and are weighed again when they are taken to the picking rooms. In this way accurate figures are secured as to the gains made. Then a further record is made of the shrinkage between the weight of the fowls before they are dressed and afterward.

The feeding rooms are kept in perfectly sanitary condition and a visit to this department as well as the others in the big plant gives ample proof of the efficient method which has been the great factor in producing the marvelous growth of the Swift and Co. business.

As stated before, there are plants of this kind in Decatur, Mt. Vernon and Jacksonville, Swift and Co., owning a total of 48 creameries while the number of beef distributing stations owned is about 480.

New Equipment Is Added. Just now some new equipment is being added to the butter department. Each can of butter fat or cream as it is received at the plant is then emptied into a great receiving vat. It later passes into a pasteurizing machine and then after a cooling process is piped to one of the three churns, each of which has a capacity of 800 gallons.

All of this machinery is operated by electricity. The finished butter is sent into a packing room where a temperature of about 50 is maintained. There it is cut by wires into the proper sizes for cartons. These are in quarter pounds, half pound and one pound sizes. The smaller packages are then placed in larger cartons and then placed in a storage room with still higher temperature, where the packages are kept until they are placed in a refrigerator car for shipment.

Any visitor to the plant will be courteously received and an inspection trip will leave no doubt as to the importance of this business among the industries of Jacksonville.

The Brotherhood of Westminster church will meet tonight at 6 o'clock. Supper will be served and afterward Professor Moats of the faculty of Illinois College will make an address, based upon his experiences in Russia.

ANNUAL CONCERT OF WOMAN'S CLUB

Was Given in Music Hall Illinois Woman's College Thursday Evening—Event One of Unusual Brilliance.

Among other things that make "atmosphere" in Jacksonville there is no more potent factor than the Woman's club.

The club stands for better things from infancy to old age—for does it not care for the life of the individual in its drive for better babies, and in its stressing of health week for people of all ages so that the physical well being of the people of the community is lost sight of at no period of life.

In its zeal for the intellectual life it is no less progressive. It brings to us the best talent that its means permit and generously says to all, "Come, even though you are not supporting us with a membership, come and enrich your mental and spiritual life for a very small fee."

One of these opportunities came to the people of Jacksonville last night in the annual concert. Even to the local club does not have what is known as a "music section" great attention is paid to this art.

Mrs. O. F. Ruffe president of the Woman's club graciously presented the matter of the attitude of the club to music, saying that at every meeting during the year music was planned as a part of the program, and that one entire session was given to the presentation by visiting artists. Such an annual occasion had resulted in bringing the program of the evening to presentation in Music Hall.

She voiced the sentiment of many in the audience, when in speaking of the ladies who were to appear on the program, she made special reference to Mrs. Harsch, whose former home was Jacksonville and who received years of training in the conservatory and the College of Music.

The program was given under the direct auspices of the music committee of the Woman's club. Mrs. Barr Brown, the chairman, has the support and co-operation in the committee work of Mrs. E. E. Crabtree, Miss Amy DeMotte, Mrs. Felix E. Farrell, Mrs. A. R. Gregory and Mrs. Andrew Russell. Assisting Mrs. Brown in arrangement of details for this successful event were the chairmen of the various committees of the Woman's club, Mrs. Clark Green, Mrs. Ben Lorton, Mrs. J. K. C. Pierson, Mrs. W. D. Roberts.

The urbers were: Miss Ruth Armstrong, Mrs. Charles Ator, Mrs. Crabtree, Miss DeMotte, Mrs. Farrell, Mrs. A. R. Gregory, Mrs. H. C. Goebel, Mrs. Russell and Mrs. E. E. Sovern.

The program proved in every way all that the club and guests expected. Mrs. Harsch the piano soloist proved the fulfillment of the promise of her youth. Her numbers were given with exquisite finish and taste. Power combined with delicacy and keen appreciation of the task she had set herself satisfied every hearer. She also furnished the accompaniments for Miss Sundstrom and Mrs. Holzman. In this form of work Mrs. Harsch proved her mettle no less than in her two groups of solos and no small part of the measure of success of the ensemble numbers was due to her excellent work at the piano.

Miss Sundstrom the new to her audience won them at once. She plays with breadth and authority and has enormous tone. A true quick left hand and a light yet strong right arm are incidents in her artistry, for all the technique possible without the soul of a musician would not avail to bring about the lovely playing that she delivered.

Mrs. Holzman also made her first appearance here. That she pleased was evident at once. She has a well trained, well placed, well modulated organ and her power of interpretation is outstanding. She added two songs to her printed program, one of them being "A Red Red Rose," written by Mrs. Harsch. She also substituted "If Thou Thy Heart Bestowest," by Bach for "Ben Bolt" as given in the program.

Mrs. Harsch and Miss Sundstrom each added a number to their solo group.

Again the annual concert of the Woman's club becomes a matter of history and without doubt this concert was the best of its kind that the club has offered.

LAKE SUPERIOR NOW OPEN FOR NAVIGATION

Duluth-Superior Harbor Opened April 1—Ice on Great Lakes Light the Past Winter.

Duluth, Minn., April 1.—(By A. P.)—Ice has practically cleared from the local harbor and vesselmen assert lake steamers should be able to make their initial cruises down Lake Superior at any time now.

In the Duluth-Superior harbor local navigation was officially opened on April 1, when the freighter Peter Reiss, preceded by tugs, broke its way thru the disconnected ice on the bay and proceeded out the lake to Fort William.

Government reports indicated as early as three weeks ago that the ice on the Great Lakes was extremely light, with heavy floes being noted only in part of Lake Michigan.

At White Fish Bay where ship masters report there is usually more or less trouble with ice early in the season, the lake is virtually clear.

According to the government reports, easterly winds early in the month filled the straits with light ice. St. Clair river, which three weeks ago reported clear as far south of Marine City, is said to be entirely clear now. There is only light ice in Lake St. Clair and the Detroit river, while little obstruction to lake traffic is now evident in Lake Erie, vesselmen here have been advised.

The United States Steamship inspection office in Duluth made its first inspection on April 1. Deputies of the office now have made reports on several of the 125 steamers which wintered at Duluth and Superior locks.

Preparations are being made at local coal docks for the first cargoes of coal from eastern mines, which are expected to be landed here shortly. So far marine toll-takers say there has been little activity noted in iron ore shipping circles. Early shipments are expected to be chiefly of grain.

The total tonnage of receipts and shipments in the Duluth-Superior harbor during the 1920 season of 238 days was 46,808,613 tons, valued at \$52,900,033, the annual tonnage report of the United States engineer office showed.

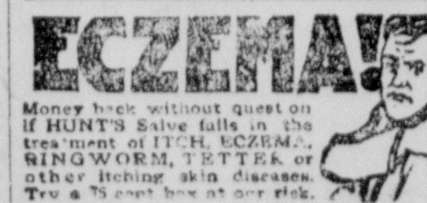

HOME TALENT PLAY IS GIVEN AT MURRAYVILLE

"An Old Fashioned Mother," a play presented Thursday night by the Ladies' Aid society of the Murrayville M. E. church, was one of the best home talent performances which Murrayville people have witnessed in recent years. The play was given at Carlson's hall and the audience which assembled was one which taxed the seating capacity of the building.

The cast included a large number of persons and the way in which the various parts were taken proved that much time and work had been given to the task of preparing for this presentation. The Murrayville orchestra furnished a splendid musical program between the acts. The play is to be repeated tonight and judging by the number of seats sold yesterday there will be another record attendance tonight.

VERDICT OF DEATH FROM FIRE RETURNED

Dowell, Ill., April 14.—A verdict of death from fire of undetermined origin was returned today at a coroner's inquest into the Kathleen mine fire, here Feb. 2 last, when seven men lost their lives. Operations have been resumed.

After you eat—always use EATONIC FOR YOUR STOMACH'S SAKE—one or two tablets—eat like candy. Instantly relieves Heartburn, Bloating, Gassy Feeling. Stops indigestion, food souring, repeating, headache and the many miseries caused by

'Acid-Stomach'

EATONIC is the best remedy, it takes the harmful acids and gases right out of the body and, of course, you get well. Tens of thousands wonderfully benefited. Guarantee to satisfy or money refunded by your own druggist. Cost a trifle. "Please try it!"

DR. PURVINES DIED AT HOSPITAL HERE

ASHLAND MAN INJURED IN STABBING AFFRAY SUC-CUMBS.

Samuel Jones Now Under Arrest and Must Answer for Dr. Purvine's Death—Coroner Will Continue Inquiry Today.

A coroner's jury was summoned yesterday to inquire into the death of Dr. James Purvines of Ashland, who died at Passavant hospital in this city at 10:30 o'clock Thursday morning. Dr. Purvines, a veterinarian, was severely stabbed March 16 in an affray with Samuel Jones of that town. For a number of days the injured man was at the home of a physician but later improved to such an extent that recovery seemed certain. Just a few days since he was brought to the hospital here for an X-ray examination.

Jones was arrested at the time of the stabbing and remained in the Cass county jail for a number of days. When the condition of Dr. Purvines improved rapidly he was released and although the case was subsequently investigated by a grand jury, no indictment was returned. Yesterday Coroner Rose was notified of the death of Dr. Purvines and because of the circumstances preparations were made to hold an inquest.

The body was removed to the Reynolds mortuary and the jury Coroner Rose empaneled met there. The action taken was on advice of State's Attorney Carl E. Robinson, who communicated with State's Attorney McClure of Cass county. The jury includes Marcus Hulett, foreman; Walter DeShara, clerk; Henry Edelbrock, Ray Hartman, D. T. Heilmich and Benjamin Owens.

Adjournment was taken until 1 o'clock Friday afternoon, pending the arrival of witnesses from Ashland.

Dr. Purvines' death had been transmitted to Cass county, State's Attorney McClure ordered the arrest of Jones

Are You Prepared To Go on the Big Excursions To Chicago?

We have just received a shipment of new Trunks, Traveling Bags and Suit Cases and are in a position to take care of your needs in this line.

If you plan to take advantage of these reduced railroad rates, see us before you buy.

T. M. Tomlinson

in Ashland and he was later taken to the Cass county jail in Virginia.

A post mortem examination was held here by direction of the state's attorney Dr. W. P. Duncan, Dr. Ellsworth Black and Dr. Edward Rowe making the examination. The result of the examination will be made known in testimony before the jury today.

Had Dispute Over Bill. The altercation in which Dr. Purvines was injured occurred as the result of a dispute over a bill for \$5. The veterinarian was stabbed several times and the knife blade penetrated the lower lobe of one lung. It is possible that the injury to the lung resulted in the attack of pneumonia which eventually caused death.

Jones has been a resident of Ashland for a long period. He has a wife and five children. At the time of the affair he had little difficulty in securing bondsmen. Dr. Purvines was a native of Pleasant Plains and had been practicing in Ashland for the past two years. Several years prior to that time he lived in Jacksonville and was an assistant to Dr. Thomas Willerton. He is a son of Mr. and Mrs. Nathan L. Purvines of this city and is survived by his parents and his wife.

Dr. Purvines was widely esteemed and was successful in his professional work. He was a Mason of the 32nd degree, a member of the Mystic Shrine and had other lodge affiliations.

Funeral services will be held at 11 o'clock this morning at the home of Dr. Purvines' parents, 423 West State street. The remains will be taken over the 12:30 Wabash train to Carthage and then conveyed to the cemetery at Basco.

QUINCY RESIDENTS END VISIT HERE

Mr. and Mrs. Arthur Roy have returned to their home in Quincy after a visit in this city at the home of the former's brother, D. P. Roy, on Prospect street. Mr. Roy is a well known attorney of Quincy and recently spent several days in Springfield, as he had some cases pending in the state supreme court.

## MANCHESTER SENIORS ARE GIVEN BANQUET

Juniors Entertain Seniors in Fine Manner Thursday Evening—Langdon Funeral Largely Attended—Other Manchester Items.

Manchester, April 14.—The juniors of the Manchester high school gave a banquet Thursday evening for the senior class at the home of Otis Hart. The menu served was one which left nothing to be desired and the program which followed the banquet was one of very great merit. Toast were given by Otis Hart.

## A TEXAS WONDER

For kidney and bladder troubles, gravel, weak and lame back, rheumatism and irregularities of the kidneys. If not sold by your druggist, by mail, \$1.25. Small bottle often cures. Send for sworn testimonials. Dr. E. W. Hall, 2926 Olive St., St. Louis, Mo. Sold by all druggists.—Adv.

president of the junior class; Vince Gidney, president of the seniors; Miss Lemon, Miss Whitlock and Miss Sullivan. Games and music also had an important part in evening's program, and altogether it was one of the most pleasant social events in the history of the senior class.

Mrs. W. A. McPherson spent Tuesday with her son, Mayor McPherson and family, at Pisgah.

Miss Pearl Gidney of Jacksonville is enjoying a visit with home folks.

Mrs. S. G. Sykes of White Hall spent Wednesday afternoon with her parents, Mr. and Mrs. John Blevins.

J. C. Andras, Sr., was a business visitor in Jacksonville Wednesday.

Miss Ruby Shirley was a Jacksonville shopper Wednesday.

Mrs. Belle Gidney and daughter, Miss Pearl, spent Wednesday with friends in Winchester.

Mrs. John Blakeman spent Wednesday with her mother, Mrs. D. C. Arnold, in Jacksonville.

Langdon Funeral Services. The funeral of the late John H. Langdon was held at 2:30 o'clock Thursday afternoon at the Baptist church, the services being in charge of Rev. O. A. Carman of White Hall and Rev. Fred Peek of Manchester.

It was one of the largest funerals ever held in Manchester, the church being inadequate to accommodate all who came. The deceased was one of the best known residents of the Manchester neighborhood and his death means a great loss to family and friends.

Music for the occasion was furnished by the Duncan sisters of White Hall. There was a great profusion of floral tributes and these were cared for by Mrs. J. C. Akers, Mrs. Meda Andras, Misses Emily McCracken, C. D. Chapman, Mrs. E. E. Rouan and Miss Greenwalt.

Interment was made in the Manchester cemetery, the bearers being F. C. Lukin, C. D. Chapman and James Preston.

TO TAKE DANCING LESSONS IN CHICAGO. Miss Virginia Bullard is in Chicago to take a number of lessons at a dancing school there. Later Miss Bullard is to teach the dances to the Illinois college students who are to have part in the May Day Shakespeare play to be given this spring.

TO ATTEND NATIONAL D. A. R. CONVENTION. Miss Effie Epler of this city, state librarian of the D. A. R., left last night for Chicago. She will be one of the Illinois delegates to the D. A. R. national convention at Washington, D. C.

DR. HARKER ON TRIP. Dr. J. R. Harker of the Illinois Woman's college, left yesterday for a trip thru Indiana and Ohio in the interest of the college. He expects to be away for four or five days.

## COBB'S TIGERS WIN OPENER FROM SOX

Take Close Game by Score of 6 to 5—Drive Kerr from Mound in Seventh.

Detroit, Mich., April 14.—A seventh inning rally and a single by Heilmann in the ninth gave Detroit the opening game of the American League season here today, and a 6 to 5 victory over Chicago. The game was played in a steady drizzle.

Detroit was on the short end of a 5 to 1 score at the end of the sixth inning. In the seventh the Tigers launched an attack that drove Dick Kerr to cover and netted four runs, tying the score.

Morris, who relieved Kerr, held the Detroiters in the eighth but lost control of the slippery ball in the ninth and passed Young and Bush. Cobb sacrificed and Veach was purposely passed. Heilmann then sent the ball into the right field overflood crowd and Young crossed with the winning run.

Sutherland, a new pitcher relieved Leonard at the beginning of the sixth and held the Sox to three hits.

PHILADELPHIA TURNED TABLES ON NEW YORK. New York, April 14.—The Philadelphia Americans turned the tables on New York today defeating the Yankees in a clear hard fought game 4 to 3, after Hawke, young pinchhitter, put New York ahead in the seventh. Philadelphia rallied in the ninth and scored two runs on the veteran Quinn on a triple by Perkins, a sacrifice and singles by Welch and Dykes.

Score: Phila. 000 200 002—4 12 1 N. York 000 100 200—3 8 1 Batteries—Rommel and Perkins; Hoyt, Quinn and Schang.

WASHINGTON WINS SECOND GAME OF THE SERIES. Washington, April 14.—The locals knocked Pennock out of the box and hit two other pitchers opportunely today, winning the second game of the series 8 and 2. Schacht pitched effectively for Washington and seldom was in danger.

Score: Boston 010 010 000—2 7 4 Wash. 101 301 11x—8 12 0 Fullerton and Ruel; Schacht and Gharitty.

JACK DEMPSEY TO BEGIN TRAINING. Champion Says He Is Not Worried About the Fact that Decisions Cannot Be Given in New Jersey.

CHICAGO, Ill., April 14.—Jack Dempsey, champion heavyweight fighter, dodging 1,000 admirers today by climbing on his train from the wrong side, left for New York to begin training for his titular match with Georges Carpentier July 2.

Dempsey announced his weight as 200 pounds, stripped—eleven pounds over the figure at which he expects to fight Carpentier. He said that he would go to his training camp May 2.

Dempsey conferred with Floyd Fitzsimmons, Benton Harbor, Michigan, promoter and agreed to meet an unnamed opponent in Fitzsimmons open air arena on next labor day. The champion suggested that Fitzsimmons stage a match between Bill Brennan and Tommy Gibbons at Benton Harbor July 4, the winner to meet Dempsey Labor Day.

The champion thought the bout would be held in Jersey City, N. J. "I'm not worrying about the fact that decisions cannot be given in New Jersey," said Dempsey. "There will be a decision in this fight, without questions. Twelve rounds will be more than is needed."

Mrs. James White is seriously ill at her home a short distance west of the city. Mrs. Norman Sheppard of Quincy, daughter of Mrs. White is here to attend her.

CLEVELAND WINS UPHILL BATTLE

World's Champs Come from Behind and Take Free Hitting Game—Eight Hurters Try Their Luck During the Contest.

St. Louis, Mo., April 14.—Cleveland came from far behind today and defeated St. Louis 12 to 9 evening up the series. Wood's double in the sixth inning scoring Speaker and Burns, put the champions in the lead. The pitching of both clubs was ineffective. Cullop was forced out of the game in the sixth when he was injured at first base in a collision with Speaker.

RAILROAD LABOR BOARD GIVES OUT DECISION THURSDAY

(Continued from Page One.)

own choice.

"If, Employees called or reported to report for work and reporting but not used should be paid reasonable compensation therefor."

The board's decision came unexpectedly in the middle of hearing on the justness and reasonableness of the existing rules and opened a way to speedy conclusion of the whole controversy.

The fight over national agreements was begun immediately after the return of the railroads to private ownership, March 1, 1920.

Referred Rules Dispute.

When the board began to function, it divided the whole railroad controversy into a question of wages and of working conditions. The hearings on wages resulted in decision No. 2 the \$600,000,000 wage award of July 20, 1920 and the rules dispute was deferred until January of this year.

In decision No. 3 the board directed that the national shop crafts agreements should be continued and the bulletins and orders of the United States railroad administration have also been continued.

In setting July 1 as the date for terminating the national agreements, the board declared in its decision that it reserves the right to terminate its direction of decision No. 2 at an earlier date than July 1 with regard to any class of employees if it shall have reason to believe that such class of employees is unduly delaying progress of negotiations to be entered into by the conference of managements and employees. It also reserves the right to stay termination of the agreements if it believes any carrier is unduly delaying negotiations.

The board directed that the conferences keep the board informed of final agreements and disagreements and that the board may know prior to July 1, 1921, what portion of the dispute has been decided.

While placing of the chief responsibility for drawing a new set of working rules on the parties involved the board did not undertake to say what part the rules agreed upon in conference and the rules promulgated by the board itself would play, in forming a new national code.

Under the transportation act provision is made for agreements between the roads and the employees and any such agreements, it was said, probably would form the backbone of a new set of rules. Such other rules as the board considered just and reasonable would then be added it was said.

HEAVY HITTING BY NEW YORK WINS 10-2

Philadelphia, April 14.—New York's heavy hitting defeated Philadelphia today 10 to 2. The visitors batted Meadows from the box before a put out was made, scoring four runs on four hits after Meadows walked Burns. Neft was steady thruout.

Score: N. York 600 100 300—10 15 1 Phila. 000 000 011—2 8 1 Batteries—Neft and Snyder; Meadows, Smith, Weisner and Wheat.

## FIRST BASEBALL GAME OF SEASON

Illinois College Hooks Up With Shortstop This Afternoon—First Game for Illinois.

Weather permitting, Illinois College will play the first of the local baseball season on Illinois field this afternoon.

Shurtliff, of Alton, will be Illinois' opponent and play will be called at 3:45 o'clock. John Hage, former minor league star, will handle the indicator.

Not much is known of Shurtliff. However, it is Illinois' first game and Coach Harmon is of the opinion that it probably is Shurtliff's first game as the weather has not been favorable to baseball so far this season.

Coach Harmon will start the same lineup as announced in the Journal Wednesday morning. Fanning is working in good form and should be able to give the Shurtliff batters some trouble, tho he will not be in the form he will show later.

The diamond was rather heavy Thursday but with prospects of clear weather today the field should be in the shape by the time play is called. It is probable a large number of fans will turn out to see the game.

MISS GENEVIEVE MOUNT

Republican Candidate for City Clerk

Miss Mount, who is employed in the office at the Woman's College, has not had the opportunity to make an active campaign but will greatly appreciate "your vote" at the polls next Tuesday. During the war time Miss Mount made an excellent record as chief clerk in the office of the Morgan county exemption board.

Cook With Gas

"Cook with Gas," is a slogan as old as the use of gas, but is an amazingly good injunction as could be testified to by the millions of gas range users.

This is the season when one begins to consider a cooler, pleasanter kitchen—abandoning the coal stove for the gas. The many reasons in favor of gas over coal or wood, particularly in warm weather, need no repetition, but we do repeat our invitation to you to call and see our large display of beautiful, practical gas ranges.

Never have we had so complete a stock, nor have we been so well situated. Our big, light display room on the north side of the square affords opportunity to show the various ranges in a manner that will enable you to more rapidly decide on the size and style best suited to your needs.

**ATTENDS DISTRICT FARM ADVISERS MEETING**  
George B. Kendall, county farm adviser, was in Springfield yesterday to attend a meeting of central advisers and secretaries, held at the Leland hotel. The sessions are to extend over a two day period and are to be attended by a large number of delegates. Among those who are to have a part in the program during the two days are W. P. Flint, L. A. Evans, J. C. Hackleman and G. N. Goffey, all of Illinois University. Among subjects to be discussed are livestock shows, variety tests of soy beans, corn root rot and other matters of interest to farmers.

A banquet was held at the Leland hotel last night, at which the delegates were the guests of the Springfield bureau. Assistant Adviser H. J. Rucker will be in Springfield for today's session.

**DEBATE**  
Ill. College vs. Carthage, College Chapel, 8 p. m., tonight.

**NORTHMINSTER MEN SERVED FINE SUPPER**  
The men of Northminster church served a supper at the church Wednesday evening preceding the prayer service, at which the women of the congregation were the guests. Over 200 persons were served and the menu was a very fine one, prepared and served altogether by the men. The committee in charge of the supper included Rev. W. E. Spooner, Earl M. Henderson, Charles DeSilva, Vincent Vierra, George Vasconcellos, and Simeon Fernandes.

Come and listen to the lecture on Christian Science at the I. O. O. F. Temple, E. State street tonight at 8 o'clock. Admission free.

**THE RED CROSS EDUCATION SURVEY**

On next Sunday evening in the Pilgrim Memorial of the Congregational church will be held the third meeting for the discussion of the Red Cross Survey of this community. Superintendent H. A. Perrin will present and discuss the education survey. These survey meetings have proven most interesting and Mr. Perrin's subject is a live one.

A fellowship supper will be served at 6 o'clock. Tickets will be twenty-five cents and may be reserved of L. S. Doane or at his office. The meeting will be at 7 o'clock and will include a musical program.

The public is invited to attend the supper and meeting, or either of them. Everyone is welcome at these community meetings.

**CONGREGATIONAL CHURCH**  
Bazaar and market today 10 a. m. to 5:30 p. m. Admission free.

**NOTICE.**  
Sealed bids for the auditorium seats, electric lighting fixtures and the steel wall lockers for the new Jacksonville High School, District No. 117 will be received at the office of the Board of Education up to 2 p. m., Friday, April 22, 1921. Specifications and schedules may be obtained from J. W. Royer, architect, Urbana, Ill.

**BOARD OF EDUCATION.**  
April 14, 1921.

You are cordially invited to attend a free lecture on Christian Science at the I. O. O. F. Temple, E. State St., tonight at 8 o'clock.

**CONGREGATIONALISTS HELD BAZAR THURSDAY**

Many Beautiful and Useful Gifts are Offered for Sale. Ladies Served Tea in Costumes During Afternoon.

A tempting array of loveliness is characteristic of the spring bazaar which opened yesterday at the Pilgrim Memorial building of the Congregational church. The beautiful display of handwork, both dainty and useful, is the result of a great deal of time and ability expended by the ladies of the church, all of whom have done so much to make the affair the success that it is.

In the lower rooms are displayed the articles of the bazaar and the market. Cunning things for babies, sweaters, booties, embroidered bibs and dresses are found on the table in charge of Mrs. Lee Doane. A charming feature is the art table in charge of Mrs. Charles Smith, where dainty hand painted gifts are for sale. That articles may be both useful and pretty is proven by the attractive display of cretonne and applique aprons and rag rugs.

Mrs. J. E. Knapp has charge of these and also of the sale of delicious home made candies. Fancy bags of every description are in charge of Mrs. M. H. Havenhill.

Mrs. Herbert Capps presides over the table where fancy goods of all kinds are for sale. Exquisite organ collar and cuff sets, card table covers, buffet sets and linen goods are among the articles found here. Last but by no means least is the tempting home made food stuff which the ladies have made. Mrs. D. B. Hutchinson is chairman of the sale of dainty pastries and preserved fruits.

In the upper rooms of the building tea is served by ladies dressed in quaint costumes. A collection of old fashioned articles adds color to the scene and in the different rooms are exhibited a large number of beautiful quilts both old and new. The old quilts range in age from fifty-five years to one hundred and forty years, the latter being the age of a hand woven counterpane.

Patchwork quilts of fascinating designs and indicative of days and years of tedious work are to be seen. Space does not permit the mention of all of them individually, but one, the "Stars and Stripes" design was made by a young girl during the Civil War to put in her hope chest which she was filling for the time when her lover should come home. Another quilt made by Mrs. Doris Ellis Job was made in 1859 and won the first premium at the Illinois State fair in 1860. A large number of beautiful modern applique spreads are also shown.

Those in charge of the quilt display are Mrs. William Hancock, Mrs. T. P. Carter and Mrs. C. H. Hall.

**TO ENTER NEW WORK WITH LINCOLN COMPANY**

Floyd Heckel, formerly clerk at the school for the Blind in this city and son-in-law of Mr. and Mrs. D. P. Roy, is soon to take a position with the Lincoln Gravel Co. Mr. Heckel recently resigned his position as chief clerk at the state school and colony in Lincoln, after a period of ten years' service for the state. Mrs. Heckel is principal of the state school at Lincoln and will retain that position.

**TO BE ORDAINED HERE**

Ernest Fernandes, a student at McCormick Theological seminary in Chicago, is to be ordained May 25, when the Presbytery meets in this city. Mr. Fernandes has been called to a church at Eureka, Ill., and is to enter upon his duties there soon after he is ordained.

**Social Events**

**Mound Woman's Country Club Met With Mrs. Clary**

The Mound Woman's Country club met yesterday afternoon with Mrs. John Clary. The regular business session was held which was followed by a short program. A paper on the Erie canal was given by Mrs. John Gunn with maps to illustrate. Music was furnished by Mrs. James. After the program refreshments were served by the hostess. The next meeting will be held with Mrs. Clinton Lloyd. A demonstration will be given by Mrs. Jones of Woman's College on cake icing plain and fancy.

**Mrs. Luken Given Surprise Party**

Mrs. W. H. Luken was most happily surprised at her home on South East street yesterday afternoon when the members of the Ladies' Aid of the Lutheran church gave a party in honor of her birthday. About eighteen ladies came to her home bringing with them well filled baskets. The afternoon was most pleasantly spent with conversation and delicious refreshments were served from the sumptuous store brought by the guests. Mrs. Phillip Schultz, Sr., president of the Aid society was the chairman for the affair. Mrs. Luken received many hearty congratulations from her friends.

**Brooklyn Aid Society Met**

The Brooklyn Ladies' Aid society held its regular meeting yesterday afternoon in the church parlors. Mrs. Randle and Mrs. S. W. Hirsch were the hostesses. A short program followed the business session. The ladies were entertained very pleasantly by the reading of several selections by Mrs. James Bossarte. The ladies also spent part of the time working on quilts. During the social hour, the hostesses served dainty refreshments.

**Fortnightly Club Met With Miss Wakely**

The Fortnightly club met Thursday afternoon at the home of Miss Fannie Wakely on South Main street. A unique and interesting subject was that of "Stage Coaches and Taverns of Pilgrim Days" which was discussed by Miss Jennie Grassley. The joys as well as the tribulations of travel in by-gone days were described by Miss Grassley. The hostess served attractive refreshments in the course of the afternoon.

**Mrs. D. L. Dye Hostess to North End Club**

The North End Thursday social club met yesterday afternoon at the home of Mrs. R. L. Dye on West Walnut street. There were thirty ladies present, among them five new members. Mrs. George Oglesby, Mrs. Frank Nunes, Mrs. Claude Goes, Miss Inez Bernice Rice, Mrs. John Roberts and Mrs. John Ferguson. The afternoon was an especially delightful one passed in a social way. Miss Beatrice Dye and Mrs. Claude Goes gave several musical numbers that were much appreciated. In the course of the afternoon, Mrs. Dye served very dainty refreshments. The club will meet April 28th with Mrs. D. L. McCarthy on South Main street. Mrs. William O'Neil will assist her as hostess.

**Telephone Employees Went on Picnic**

The employees of the Illinois Bell telephone company went to Dunlap Springs Wednesday evening and had a weiner roast. Fourteen couples were participants in the merry outing and they were chaperoned by Mrs. Carroll, chief operator and Mr. Hildreth, plant chief. Mr. and Mrs. Addison Taylor and Mr. and Mrs. Merle Braner were guests of honor.

Mrs. Shirley Frye Strawn Entertains for Miss Sargent. Mrs. Shirley Strawn Frye entertained a company of young ladies at her home, 610 South East street Thursday evening in honor of Miss Gladys Sargent who is soon to wed.

Eighteen of the intimate friends of Miss Sargent were the guests and progressive Rhum was played. Miss Catherine Cain was awarded first prize while the guest prize went to Miss Sargent.

The affair was a surprise on Miss Sargent and was in the nature of a kitchen rush and the guest received many useful gifts. Following the play the hostess served a two course luncheon. The event was one of the most delightful of the many functions that have been given in Miss Sargent's honor.

**State Street Church Ladies' Aid Meets**

The Ladies' Aid society of State Street church held its first meeting of the new church year yesterday at three o'clock at the church. A business and social hour was enjoyed. Miss Frances Alkire gave two delightful readings. At the business session the newly elected president, Mrs. C. A. Johnson presented some of the plans for the coming year. This year the society will hold two meetings a month, one an afternoon meeting on the second Thursday of the month and the other an all-day sewing on the fourth Thursday.

Each lady of the church will be given the privilege of working on any one or more of the seven following circles: 1. Lunch and market. 2. Sewing. 3. Apron. 4. Comfort and Quilting. 5. Fancy Work and Novelties. 6. Entertainment. 7. Kitchen.

Besides the above named circles for work there will be several committees such as Visiting, Hos-

**FOREIGN WAR VETS MET THURSDAY NIGHT**

Held Regular Meeting With Good Attendance of Members Activities for Summer Planned.

Harrison Dickson Post Veterans of Foreign Wars held its regular meeting Thursday evening with a good attendance of members.

A great deal of routine business was transacted during the evening. Among other things was the adoption of the resolution on Americanism which has been endorsed by the national organization.

The post also talked of activities for the coming summer. It is proposed to make a specialty of feeds and hikes. The hike feature it is believed will appeal to the vets and it is probable that equipment will be taken and feeds enjoyed on these hikes. The officers of the post believe that these hikes and feeds will further promote the spirit of comradeship which is one of the cardinal principles of the organization.

Looking to the development of this spirit the post decided to make plans for club rooms in the near future. It is realized that when veterans get together they have something to talk about and with club rooms it will give them a place to meet for social times and will result in strengthening the organization.

The following paragraph from a folder of the organization gives an idea of the qualifications of members:

"We extend the hand of comradeship to all who saw actual service in any war or campaign with a foreign foe. Those who helped humble the Don in '98; who helped stamp out insurrection in the Philippines from '98 to '06; who scaled the valled cities of China with the relief expeditions in 1900 and 1901; and those who served OUTSIDE THE UNITED STATES in the war with Germany and her Allies, the men who helped drive the brutal Hun back within his own borders in the war for world democracy. 'The Fighting Men of the U. S.'"

"JOIN NOW."

**MEDICAL SOCIETY CONSIDERED SURVEY**

Different Phases of Red Cross Report Discussed From Varying Viewpoints.

At a meeting of the Morgan County Medical Society last night Dr. F. A. Norris, the president presided. The Red Cross survey was the theme for discussion and it was presented by Dr. H. C. Woltman, who found much in the survey to approve and expressed the belief that it can be made the basis for very successful work in Morgan county.

The figures on taxation and finance presented were sharply attacked by Dr. Edward Rowe. His point was that to be effective the survey should show some way to reduce taxation for the average individual, instead of merely suggesting lines of work that may mean further taxation. Dr. Rowe cited the case of the railroads, that profit thru the location of hospitals in this city and who nevertheless resisted the tax for the anti-tuberculosis sanitarium and seriously interfered with the project.

The physician quoted figures showing the relation between the bonded debt and capital of the Jacksonville Railway and Light Co., and the assessed valuation of the company's properties. His thought was that corporations do not pay a fair percentage of the taxes.

Dr. A. M. King, health warden took issue with the mortality statistics resented in the survey and maintained that the report as presented showed a much higher mortality rate than the facts warrant.

Dr. Carl E. Black joined Dr. Woltman in commending the survey and its value to the community.

**MATRIMONIAL**

**Gillis-Hungerford**

The marriage of John Gillis of Springfield and Miss Blanche Hungerford was solemnized at 3:30 o'clock in this city Thursday afternoon. The ceremony was performed by Justice C. O. Bayha at his office on West State street, and was witnessed by John Brown, grandfather of the bride.

The bride is a daughter of the late Frank Hungerford and belongs to one of the well known families of the county. She has been for some time past residing in the Nortonville neighborhood, where she has made many friends.

Mr. Gillis is an electrical engineer and is employed by the Sangamo Electric Co. The young people will make their home in Springfield and will have the congratulations and best wishes of a large number of friends.

Homer Massey, who has been ill at Passavant hospital for the past five months, remains in an unimproved condition.

Funeral services for the late Mrs. M. J. Doying will be held at 2 p. m. at the funeral home of the late Mrs. Doying.

Funeral services for the late Mrs. M. J. Doying will be held at 2 p. m. at the funeral home of the late Mrs. Doying.

Funeral services for the late Mrs. M. J. Doying will be held at 2 p. m. at the funeral home of the late Mrs. Doying.

## New Home Sanitarium

Incorporated

A Private Surgical Hospital

Thru its Public Health Department Says:—

WE WISH FIRST TO "BEG PARDON" for this long silence. No, we have not been asleep on the job—but we have been PUSHING and cleaning up our program for the past year. Now our plans are all set for this newest of all years. Keep your eyes on this space and your "Minds Open."

DON'T BE A PESSIMIST or a sore head knocker—if you are you will be disappointed and not enjoy the opportunities you have for making this old world better this year. Keep open minded. Do you know that bathing in bath tubs, as late as 1842, was condemned and denounced by the medical profession? Do you know that Dr. Wm. Harvey—the discoverer of the circulation of the blood—had a great practice until he made this discovery known. But after he did—he was called "crack-brained"—crazy—and people became afraid of him and soon he had no business.

THE BAVARIAN ROYAL COLLEGE of Physicians claimed that railroads would ruin the health of people and cause brain diseases and for a long time railroads were not permitted in that country.

PRINTERS BROKE OUT THE WINDOWS of the first plant that installed linotype machines. They considered them works of the devil.

WHEN DAUGERRE INVENTED the method of transferring human likenesses to tin plate he was declared insane and put in an asylum.

FIFTY YEARS FROM NOW children will be erecting monuments to the "crazy" men of today. So go easy in condemning new ideas. SOME ARE knocking at this door.

**A. H. KENNIEBREW, M. D.**

Surgeon in Charge.

## RED CROSS RECREATIONAL SURVEY

Street Fairs and Carnivals.

Years ago street fairs were held in the Public Square in Jacksonville. Public sentiment discontinued them. Each year several carnival companies come to Jacksonville and show on private property. Some of these companies are very ordinary, yet attract good attendance. Occasionally some local organization secures a good carnival company for a benefit and these are usually well attended.

Chautauquas.

The Jacksonville Chautauqua Association, a voluntary organization of ticket purchasers managed by a board of directors who serve without pay, holds a ten-day assembly at Nichols Park, Jacksonville. The management endeavors to present the best obtainable talent at the lowest ticket price possible so as to permit everyone to enjoy the programs. All profits—sometimes there are losses—are carried in the treasury as a guarantee against future losses. About three thousand season tickets are sold each year and the daily attendance under favorable weather conditions runs from three to six thousand persons.

Only the finest attractions offered by the host bureaus are engaged and many are secured direct. The Chautauqua is entirely independent of any bureau or circuit. On its programs appear famous lecturers on social, civic, educational and economic questions who "speak right" in meeting. Clean, wholesome entertainment is always provided and the music is selected not only to entertain but to teach the audiences to enjoy the best there is in music.

An interest in the assembly which increases from year to year indicates the place it holds in community social life. It is a successful community effort which is responsible for much awakening to local problems, and the only county-wide organization which brings the people of the city and country together. About one hundred families camp on the grounds each year. The sessions have been held under a tent but the Chautauqua should have a permanent pavilion and larger and more accessible grounds to accommodate the campers and a larger attendance.

Several of the towns in the county have annually the usual small-town circuit chautauquas with varying success and attendance.

Jacksonville has always had strong lodges. It is reported that after the saloons closed, the lodges experienced a great increase in membership, partic-

OLD FRIENDS PAY TRIBUTE TO JOHN BURROUGHS  
Among the host of oldest and truest friends who paid their annual tribute to the memory of the distinguished scientist and naturalist, were Mr. and Mrs. Thomas A. Edison.

ularly among the young men of the city.

As far as could be ascertained by this committee, Jacksonville has 20 lodges and fraternal organizations. Eight of these responded to the questionnaires which were sent them by this committee. They reported a total membership of 1,416 and a total average attendance of 246. Only five per cent of the members reside on farms. If those reporting may be taken as an average, there are probably about 3,500 lodge members in Jacksonville.

The small average attendance is due possibly to the lack of recreational equipment. Only two of the lodges reported having a club room in connection with the meeting place. It is evident that the purpose of the lodge is not primarily recreational.

There is apparently no especial effort on the part of the lodges to provide recreation for the boys and girls of their members. A reason for this can be found no doubt, in the inability to apply funds outside the purposes of the order, but in several instances interest was expressed in the development of Boy Scout and other club work. One of the purposes of sending out the questionnaire was to get an expression of opinion in regard to organizations giving their moral support to a recreational program.

No discussion of community organization and recreation would be complete without an understanding of what is being done by the churches. In many cases they form the center of the social life of the community, and altho not organized for the purpose of recreation they are the natural meeting places of persons with similar ideas and frequently provide the only source of social activity.

There were sixteen churches in Jacksonville to whom questionnaires were sent concerning the recreational advantages they afforded the community. The nine responding reported varied organized effort and social activities among their memberships. In addition to the usual type of church society two had groups of Boy Scouts and Camp Fire Girls; two others had Boy Scouts only; and one a Boys' Club. The Salvation Army has an enrollment of 165 children in their Boy Scouts and Girl Guards and also a group of Camp Fire girls. The Salvation Army being a non-sectarian organization is enabled to reach persons in the community outside its regular membership.

Congregational Church Community House.

The Congregational church is just completing a community house as an addition to its equipment. Primarily for religious education, the addition will also afford ample and convenient accommodations for community meetings, Boy Scouts, Camp Fire Girls, and other social organizations.

The church equipment now includes an auditorium, a large social room with stage and dressing rooms, a kitchen and nineteen smaller rooms for Sunday school use and for young people's organization meetings. The building houses an excellent, endowed library of about 2,400 volumes of science, history, biography, travel, Belles Lettres, the arts, religion and standard fiction; many of which do not duplicate volumes in other local public libraries. The entire building is well lighted and has every modern convenience. The large lawn surrounding the building affords an excellent place for outside social and religious gatherings in warm weather.

The edifice is arranged to serve as a community center as well as a church and is located but a short distance from the business center in a splendid residence section near the high school and several colleges. It has unusual equipment for a town church and has shown exceptional interest in community activities as evidenced by the fact that the church has several young people's clubs, two Camp Fire groups and one Boy Scout troop and junior organizations

## FOR MOTHERS

Bloomington, Ill.—"Dr. Pierce's Favorite Prescription proved very beneficial to me as a tonic. During expectancy I became all run-down, weak and so nervous I could not sleep. I had no appetite, was feeling miserable all over when I decided to take the Favorite Prescription. It soon built me up in strength, all nervousness left me, I could eat and sleep and felt like a different being. If more women would take this medicine there would be fewer ailing."—Mrs. Zella Shaffer, 1010 W. Front St.

### LOCAL DEGREE STAFF VISITS MEREDOSIA

Ridgely Encampment No. 9 Confers Degrees Upon Large Class Tuesday Night—Other Meredosia News Items of Interest.

Meredosia, April 14.—Ridgely Encampment No. 9 of Jacksonville sent its degree staff to Meredosia Tuesday night to confer degrees upon a large class of candidates, forty in number. The work was done in a very impressive manner and ceremony was witnessed by nearly one hundred encampment members from various places, Bluffs, Naples and Jacksonville being represented. The work was begun shortly after seven o'clock and continued until past midnight. Splendid refreshments were served in the town hall, which was converted into a large dining room. The serving was done by the wives of the encampment members.

L. H. Yost was a caller in Chambersburg Tuesday.

G. M. Stienberg was a business visitor in Jacksonville Monday.

W. L. Wilday, Mrs. J. F. Brockhouse, Hal Naylor and wife and Mrs. Geo. Butcher motored to Jacksonville Wednesday and visited with Mrs. Brockhouse, son Russell, who is at the hospital, but is doing fine and hopes to soon be home again.

Frank Korsemeier was a business caller in Jacksonville Monday.

Richard Brown and wife of Springfield visited relatives here over the week-end.

Mrs. J. N. Peas spent Wednesday with her husband in Springfield, he returning home with her Thursday.

Mrs. H. E. Harms, Mrs. Francis Euke, Bernice Skinner and L. H. Yost motored to Jacksonville Wednesday.

Mr. and Mrs. C. P. Hedrick and Albert Skinner motored to Milton Wednesday and were the guests of Mrs. Hedrick's parents.

Insure with M. C. Hook Co.

#### FOR THAT COUGH

Champaign, Ill.—"When I was a young woman working in a laundry, the steam I inhaled affected my bronchial tubes so that I had a continuous cough, worse at night than during the day. A friend advised me to take Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Cough Syrup and these two remedies gave me immediate relief, eventually curing me of all bronchial weakness. I am glad to recommend such worthy remedies as Dr. Pierce's."

Rockefeller, who is to wed Miss Anne Stillman, nineteen-year-old daughter of James A. and Mrs. Stillman. Mr. McCormick, who is only twenty-three, attends Princeton University.

#### ARGENTINNA IS SCENE OF WILD WEST STUNTS

Peons Have Formed Bushranger Bands and Steal Cattle and Destroy Property.

BUENOS AIRES.—(By The Associated Press.)—The Far South of the Argentine republic has been the scene lately of a series of adventures the account of which reads as the tale of a story of the "Wild West" in its palmy days of lawlessness.

Peons of some of the ranches of the territory of Santa Cruz, dissatisfied with the humdrum life of sheep shearing and sheep tending which is the occupation of the great majority of the people in these remote regions, converted themselves into a band of bushrangers and commenced to hold up the inhabitants in the best Jesse James style. Their example was quickly followed by their fellows on many other establishments, and among them they soon "mobilized" formidable gangs of desperadoes which terrorized the best parts of the territory with absolute impunity. Their number was estimated at over 1,000.

The bandits, who were well armed with rifles and mounted on the best horses, raided all the likeliest establishments, burned the buildings, stole all the valuables to be found and obliged the employees to join their ranks. Even when they omitted this last outrage they would leave the owner and his employees in a helpless position by carrying off all the horses on the place.

In certain instances they did a great deal of wanton damage, such as the wrecking of shearing machinery and the cutting of boundary fences.

The panic they caused among the sheep farmers and others was so great that many of them abandoned their properties and fled.

The police had more than one encounter with the "enemy" but suffered defeat with many casualties.

The Argentine government finally sent cavalry to deal with the bandits. Some of the milder spirits among the "rebels" gave themselves up while others numbering about 200 took to the mountains and still others fled to the adjoining territory of Chu-but where they are reported still to be making trouble.

Round and square dances, at Marquette hall, Franklin, Friday night.

#### SCOTT COUNTY GIRL WEDS AT MT. STERLING

Miss Ruby Hester Is Bride of Ira Upchurch of Mt. Sterling—Will Reside in St. Louis.

The marriage of Miss Ruby Hester of the Riggs neighborhood and Ira Upchurch of St. Louis took place in Mt. Sterling Monday, April 11 at noon. The ceremony was performed by the Rev. Robbins pastor of the Christian church in Mt. Sterling and was witnessed by Mr. and Mrs. Russell Hester, brother and wife of the bride. At the close of the ceremony an elegant dinner was served at the home of the groom's parents.

The bride is the daughter of Mr. and Mrs. Timothy Hester, who reside two miles east of Riggs. She received her education in the district school there and always made that community her home. She is charming young woman and is loved by all who know her.

The groom is a son of Ira E. Upchurch of Mt. Sterling. He is a young man of splendid character and stands high in the community because of his thrift business ability. He attended high school at Mt. Sterling and in recent years has been employed as a mechanic in St. Louis.

Mr. and Mrs. Upchurch will return to their newly furnished home in St. Louis, after a few day's visit with their parents.

#### SOCIAL SERVICE ASKS USE OF AUTOMOBILES

League Is Organizing Volunteer Motor Corps—Car Owners Requested to Lend Assistance.

One of the most interesting situations in which the Social Service league has been interested recently is that of a window who needed medical treatment but put her in a position to be able to help support herself and her children. As she had a severe case of rheumatism it was impossible for her to go to the doctor's office. This difficulty was solved thru the assistance of several people who from time to time generously gave the use of their cars for the purpose of taking her to and from the doctor's office.

This is only one of many instances in which volunteer motor service can be used to good advantage in the work of the Social Service league. In the course of the day's work calls must be often made in widely separated districts of the city. To walk to and from these places means a great loss of time and much work that could be easily accomplished with motor service must now be left undone.

To meet this need, a volunteer motor corps is to be organized. A committee consisting of Miss Margaret Moore, Mrs. Charles Fawcett and Mr. Spooner met at the league rooms Friday afternoon at 4 o'clock to formulate plans. Miss Lucy Catlin was elected captain. She is to be assisted in the organization of the corps by several lieutenants who are to be appointed later.

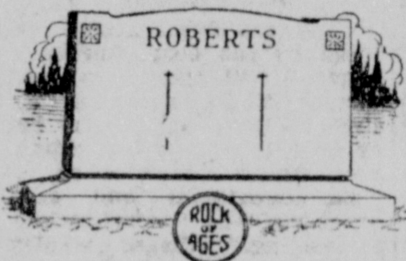

Any one giving from three to

four hours of motor service once every two weeks is eligible to membership. No one who has a car and a few hours leisure should miss this opportunity to be of service to the community. Those wishing to join may fill out the following form and mail it to Miss Margaret Moore, 856 West State street, chairman of the committee. Be sure to designate the day on which you wish to give motor service:

Name  
Address  
Day of service  
No. of hours  
Weekly  
Every two weeks

## HER TROUBLES OF TEN YEARS ARE NOW ENDED

Illinois Woman Says Tanlac Completely Restored Her Health and She Has Gained 30 Pounds in Weight

"Tanlac has not only completely relieved me after ten years of suffering, but I have actually gained thirty pounds in weight and am as well and strong as I ever was in my life," said Mrs. Richard Rudd, of Kingston, Ill.

"During all those years I never knew what a well day was. After every meal I had a dreadful feeling of nausea and would bloat up with gas until I could hardly stand the pain. I lost all desire for food and fell off in weight until I only weighed a hundred pounds. I had spells of dizziness and headaches that kept me in bed for days at a time. Pains across the small of my back were

so bad that when I tried to stoop over I made me cry out. I had to give up everything like housework, and even to walk upstairs was almost too much for me. I used to toss and turn in bed for hours at night unable to sleep, and in the mornings always felt tired and worn out.

"That was the condition I was in when my husband brought me home a bottle of Tanlac. It began to help me right from the start. I began to sleep much better, and my appetite picked up wonderfully. I have now taken eight bottles of the medicine and have gained thirty pounds, but that is not surprising since I eat so much more than I did and everything agreed with me perfectly. I am never bothered with nausea, bloating, gas, and headaches and dizziness are things of the past. The pains have disappeared from my back also, and in fact I am a perfect well woman."—Adv.

## FAVOR YONKERS PLAN OF LAW ENFORCEMENT

John D. Rockefeller, Jr., One of Sponsors—Would Nationalize Plan.

Cornwall, N. Y.—Pledges from John D. Rockefeller, Jr., and others of financial support of the "Yonkers plan" of enforcing the national prohibition amendment were announced here tonight by William H. Anderson, head of the Anti-Saloon League of New York, at the annual state conference which has given Yonkers wide publicity, declared that in New York alone 200,000 persons are back of the movement to introduce it into other states.

Explaining the Allied Citizens of America was incorporated two years ago "to uphold American ideals and the United States constitution and particularly the 18th amendment," Mr. Anderson declared that its purpose is to put into operation all over the United States the "successful experiment in practical civics," which, he said, had been made in Yonkers, his home city. In telling of its results there he said:

"There have been raids, arrests, seizures of large quantities of liquor, expulsions from the police force for connivance with violators, indictments, convictions, fines and prison sentences. City officials no longer are indifferent or defiant and there has been created a tangible majority sentiment for law observance. New York pays \$50,000,000 a year for law enforcement and the Allied Citizens of Yonkers have merely insisted that its police and civic authorities shall earn their salaries. The situation is far from perfect but there is motion and in the right direction."

All Classes United. Jews and those of other religions in Yonkers who reverence order, country, humanity and God, are united in the effort. Under the plan evidence is obtained respecting violation of the prohibition law for the sole purpose of publishing it in order that citizens may know the degree and kind of enforcement they are getting from public officials in return for their taxes. Everyone pays taxes in some form and they have a right to know what they get for their money.

"We have always refused to turn over any evidence to be used to secure convictions; that is the very essence of the plan. Publicity in the form of the organization's affidavits telling of liquor infractions helps officials who are doing their best and enables the weeding out of those who wink at violations. Thus, as we have operated in Yonkers, we shall enable the people of any community to exert the same pressure of public opinion to force officials to do their duty."

Mr. Anderson said that the Allied Citizens was designed to supplement the Anti-Saloon League

and that there are no "intimidation fees, dues or assessments." He declared the records of the Anti-Saloon League would show that more than 500,000 persons in the United States are regularly contributing to its activities. Organization of the Allied Citizens, he said, will be started by the league this week in every state. No salaries, he said, are paid to any of its officials. Quoting from Mr. Rockefeller's pledge he read: "The question of the wisdom and propriety of National prohibition is no longer an issue, having been decided by the adoption of the Federal constitutional amendment and sustained by the United States Supreme Court. It is now the law of the land, predicated upon a constitutional amendment, which is the most solemn form of legislation possible under our form of government."

Laws Must be Obeyed. "To fail in the observance and enforcement of such a law strikes at the very foundations of orderly government, and is in that way an attack upon civil liberty, for in a republic there can be no freedom for the individual if there is no respect for and enforcement of the laws, which have been enacted in the manner prescribed by the people themselves in the constitutions which they have adopted."

"While the general legislation of nation and state determines the conditions under which enforcement is a local matter and must be worked out in every locality, and the people of each locality must face and assume their responsibility for the creation and maintenance of the public sentiment that will support local officials in enforcement and require them to do their duty."

"The process of public education, which is essential to the enforcement of any law which is singled out for organized attack and effort at modification, will result in a better public comprehension of the importance of upholding the sanctity of law in general. I take occasion to express my feeling of the vital importance of law observance and law enforcement as essential to the permanence of our free institutions."

## SIGNAL SYSTEM FOR HIGHWAYS SUGGESTED

Installation of National System of Color Signals for Control of Motor Traffic on Highways Favored in New Jersey

Trenton, N. J., April 14.—(By A. P.)—Installation of a national system of color signals for the control of motor traffic on national and state highways, similar to the standardized use of red, yellow and green in railroad systems, is suggested by highway officials of New Jersey, who have approved a bill for adoption of the plan in that state.

The bill, which contains measures approved by the committee on standards of the American association of State Highway Officials, would have red signs to indicate first degree danger, such as railroad crossings, dead ends of roads or lift bridges; yellow indicating second degree danger at curves or grades, and green showing moving or traffic danger only to be used at road intersections.

Many national organizations interested in the move to reduce the annual automobile toll have expressed their endorsement of the bill's proposals.

Recent investigation, it is pointed out, shows that many leading American cities have failed to unite on a uniform use of color in highway signalling. Red, for instance, meaning first degree danger or an absolute stop signal in one town, is used in the next town at a place where green should be employed.

Two hundred American cities and towns are reported already to have adopted this color signal project, while many more, highway officials believe, will fall in line the coming year.

## RUSSIAN PEASANTS ARE IN BAD WAY

Would Trade Horse for Three Boxes of Matches or Kilo of Salt—Much Discontent and Suffering Prevails.

Stockholm.—(By The A. P.) Russian peasants south of Moscow gladly sell a horse for three boxes of matches or a kilo of salt, it is declared by persons said to be in touch with conditions in the interior of the country.

Observers cite this state of affairs as the cause of the counter-revolution in March which, they say, began to take definite form in January. Unwieldiness of the Soviet administrative machine, the differences among the Bolshevik leaders and the fuel crisis with consequent stoppage of transportation and lack of food are given as the reasons for the subversive movement.

Discontent which was prevalent throughout Russia during the war period, but concealed in the presence of the invading enemy, could no longer be repressed when the fighting men returned to find want and distress.

The first signs of revolt against the existing order are said to have been apparent at the Russian trades-union congress in Moscow last November. There were further evidences of dissatisfaction in the eighth All-Russian Soviet congress which convened in splendor at Moscow last December. These symptoms of reaction, it is stated, were unapparent on the surface, but made themselves felt among those behind the scenes. Harmonious resolutions were adopted, but the attack came from a quarter whose importance could not be doubted.

In this Eighth congress, the metal workers' and miners' unions, led by Schlipnikoff, urged the democratization of the government which it was charged, was military and bureaucratic. Schlipnikoff also demanded that the food administration be placed entirely in the hands of the trade unions. This was plainly an attack against the Communist executive committee and the highest soviet authorities.

Press Shows Freedom. More recently the press of the country has shown signs of greater freedom and has not hesitated to attack policies of the government which, it is said, has entrenched itself by appointing thousands of petty officials.

Press controversies have revealed animosities between leaders. For instance, Trotsky and his followers are declared to be set upon a policy of nationalization of trade unions, whereas Lenin believes it wiser to maintain the independence of the unions apart from the government and to use them as training schools for Communism. And there are numerous other groups which, it is stated, are bent upon other projects, revealing a tendency to destroy the former unity of front in Russian policy.

Within recent weeks the transportation of coal from the Donetz valley, has grown steadily less. The production was between 300,000 and 400,000 tons monthly, but only about 150,000 tons were loaded for rail haulage, due to the practice of expropriation by subordinate soviet corporations or councils.

Simultaneously with the reduction in the coal supply, there was an almost complete cessation of delivery of wood. In addition to this, the snowless winter and the slaughter of horses in 1920 added to the difficulties of local transport.

Lack of fuel resulted in the shutting down of rail traffic. According to soviet newspapers no trains are running on 60 lines and on the others only rudimentary schedules are being maintained.

Little hope for improvement is held out unless supplies of naphtha stored at Baku can be brought into the center of the country.

## If Your Hair Is Thinning

Strengthening and enlarging the roots of the hair is one of the secrets of forcing hair to grow something which has heretofore not been fully realized. Merely stimulating the hair follicle will not stimulate the hair growth to the extent desired. The new method just mentioned can be forced to grow several inches a month. Hair will stop falling out and new hair will be quickly noticed and all bald spots will be soon entirely filled out with new growth. This can all be easily obtained by the simple use of beta-quinol, which can be secured at any drug store at the original one-ounce package. This can be mixed at home with half pint of bay rum and a half pint of water, or with witch hazel, if you prefer. It contains no oil what ever.

To Have the Arm Pits Soft and Free from Hair  
You can be sure that there is no one sensible way to remove hair from the arm pits, and, in fact, from any part of the body. It is foolish to "burn" them off, injuring the skin, and all bald spots will be soon entirely filled out with new growth. This can all be easily obtained by the simple use of beta-quinol, which can be secured at any drug store at the original one-ounce package. This can be mixed at home with half pint of bay rum and a half pint of water, or with witch hazel, if you prefer. It contains no oil what ever.

Something Better Than Soap for a Head-Wash  
As to head-wash, you are advised against using soap or many shampoos sold, because of the alkali they contain. This dries the hair secretions. Get a package of eggol at the drug store and dissolve a teaspoonful in a half cup of water. You can get enough for twenty-five cents for a dozen or more head washes. Its magic in cleansing hair and scalp and aids wonderfully in making hair grow.

## Pianos and Player Pianos

Why This Store Sells Pianos Cheaper Than Any Other in This Section

We buy pianos and player pianos from one of the greatest manufacturers in the world—the House of Baldwin. This company operates two immense factories at Chicago and Cincinnati. They produce thirty thousand instruments a year. They make every part of every instrument. They have reduced the manufacture of pianos to a science. Big output, complete facilities and systematic economy enable them to produce high-grade pianos at the lowest cost. Their instruments cost us less than any others of supposedly equal grade. We can sell cheaper because we buy cheaper.

We deal directly with the manufacturers. We are, in fact, one of the two thousand distributors that constitute the House of Baldwin. The instruments pass directly from the factory to us. We pay no profits to jobbers or middlemen of any kind. The only amount we pay above the actual cost of making is the manufacturing profit. That is very small because the House of Baldwin prospers through volume of business—not because of exorbitant turnover on each instrument. We can sell cheaper because we do not have to pay several big profits.

We maintain no expensive selling force. Every piano is sold by us. We do not have to pay agents' commissions. We ask you simply one fair profit above the rock-bottom price of the instrument to us. Our personal, simple, individual way of doing business saves many a dollar on every sale, thus enabling us to mark every instrument unusually low.

By coming to this store for piano or player-piano, you can be sure of eliminating all extra profits you can enjoy the many advantages of dealing practically direct with the factory and you can get one of the famous House of Baldwin instruments that are known the world over for artistic excellence, remarkable durability and unequalled all-round value.

## WORLD SURVEY SHOWS HOPEFUL CONDITIONS

Widespread Expression of Business Confidence Made To National Association of Manufacturers.

NEW YORK, April 14.—In a World Trade Survey, compiled from more than 3,500 reports received by American Industries from all over the world, through the various agencies of the National Association of Manufacturers, expressions of business confidence and sane forecasts of the future are made by prominent business men of Illinois.

Forward-looking Governors of various states throughout the Union also have sent messages sounding a note of confidence in the general economic stability of the country. Some of them see a new era of prosperity; others point to the very healthy fact that the country has readjusted itself to after-war conditions with sanity and sobriety; still others believe that the period of industrial uncertainty has well passed.

Innumerable suggestions for good are made by the practical business men of the state for the improvement of conditions and the stabilization of industry, some of

the outstanding recommendations being:

1. Stabilization of foreign exchange.
2. Adjustment of the inequalities in railway wages.
3. Lessen the burden of taxation on the manufacturer.
4. Payment to the railroads of the money due.
5. Repeal of the excess profits tax.
6. Extend credits to Europe thru the Foreign Trade Financing Corporation.

These expressions and comments come from all classes of manufacturers, including car builders, chemicals, silver, vehicles, bearing, forgings, furniture, iron, textiles and agricultural implements.

Some of the comments and recommendations follow: Mt. Vernon Car Mfg. Co., Mt. Vernon, Ill., by H. H. Cust, Assistant to the President:

"We believe that the general prosperity will not return until people are convinced that the bottom in prices and values has been reached, and while this is the case, possibly in some few industries, it is not by any means the case in the large majority. Wages are still very high, and with the exception of big cities, as we understand it, retail prices have not come down to replacement values. When this is accomplished, then labor can reasonably be asked to bear its share, which will help reach the basis that will warrant general buying.

"There undoubtedly is a great deal of repressed business in the country. Of course, financial conditions for some time, will have considerably to do with any general increase in trade." Dearborn Chemical Co., Chicago, Ill.

"Stabilizing of foreign exchange and some plan worked out whereby Europe and the Far East can purchase foodstuffs and clothing to feed the 25,000,000 starving people who live in the United States) have an over-production with food selling at less than cost production. I have just returned from a trip to Cuba where conditions are deplorable for this sole reason. With the present high price of sugar less than the cost of production and a crop shortage owing to heavy rains and hot weather resulting in the cane yielding only 9 per cent instead of 11 per cent of sugar, the sugar mills are in a bad way for money and many millions are starving for sugar."

Lyon & Healy, 243 S. Wabash Ave., Chicago, Ill.:

"Adjustment inequalities in railway wage. Railways must be placed upon a paying basis, even after a reduction in the cost of transportation has been made."

"Lessen the burden of taxation upon the manufacturer. If it cannot be accomplished otherwise, the rate should be materially reduced and spread over a longer period of time than that which is now contemplated."

American Tag Co., Chicago: "Confidence in future business and stability of prices."

Monroe Drug Co., Quincy, Ill.:

"Tax relief."

Rockford Silver Plate Co., Rockford, Ill.:

"It seems to be an accepted theory that the revival of business depends largely upon a reduction in foreign exchange which will enable the foreigners to buy our merchandise and raw materials, and in turn, to sell more goods to us, thereby equalizing the balance of trade."

"Another factor in the situation is the action of the farmers in holding back their products, thus reducing the money circulation and transportation. In other words, the foreign situation and non-movement of crops has caused the present stagnation in business."

The Walke Vehicle Co., Chicago, Ill.:

"Anything that can be done to stabilize foreign exchange."

Bauer & Black, Chicago, Ill.:

"Lessen taxation."

"Refunding government obligations."

"Stabilization of exchange."

"Reduction of wages in building trades and prices of building materials so that rentals will be reduced the same as the prices of commodities."

Royal Mantel & Furniture Co., Rockford, Ill.:

"Public starting to buy."

Robert Gordon, Inc., Chicago, Ill.:

"While business is basically governed by the law of supply and demand I do not feel that there can be any prosperity until prices are stabilized. It is obvious that buyers will not place orders as long as there is a chance of a continued fall in prices. It is, therefore, necessary in order to create a market that the manufacturers in the United States create universal idea that prices have reached the bottom and that we are about to have a rising market. If we continue to cut prices with the idea of creating a market we will only postpone good markets and prosperity to all."

The Hess Warming & Ventilating Co., Chicago, Ill.:

"Revision of the present tax system; making it less of a burden on business industries."

"Stabilizing of prices; the general public is afraid to buy now feeling quite sure prices will be lower."

Richards-Wilcox Manufacturing Co., Aurora, Ill.:

"Cheaper money and reasonable reduction in wages of building trades, as well as some encouraging help to the farmer would have a wholesome effect and start business on the road to prosperity."

## WILL TRY TO STOP COAL SMOKE WASTE

Research Work at University of Illinois Promising Results—Prof. Parr Formerly Was a Member of the Faculty at Illinois College, Presents Paper.

Springfield, Ill., Apr. 14.—(By A. P.)—Elimination of the immeasurable smoke waste, which attains use of Illinois coal in homes and factories, has long been the object of scientific research which is now promising results, according to Prof. S. W. Parr of the University of Illinois, whose paper on the subject has just been published here by the Illinois Academy of Science.

"Development of smokeless fuel from Illinois coal," is the title of Professor Parr's article. Introducing the subject, he says there is more fuel for the future, more "unmined coal reserves," in Illinois than in any other state in the Union, not excepting Pennsylvania or West Virginia.

This state's yearly output of between ninety and one hundred million tons, he declares, "has a potential value annually as a source of oil, on the basis of investigation, to the extent of 2 1-2 billion gallons or approximately one-fifth of the entire annual petroleum output of the country."

"It has also," he continues, "a potential yield of 600 billion cubic feet of gas, an amount equal to the entire output of natural gas in the United States for the year 1915, of estimated value at that time of \$100,000,000."

Each ton of Illinois coal has a wonderful combination of values. The average ton holds approximately "20 gallons of oil, 6,000 cubic feet of very high grade gas, with an average heat value of about 700 units per cubic foot and 25 to 30 pounds of ammonium sulphate."

The professor declares Illinois supplies a "horrible example" of waste. "Have you ever stopped to figure some of our extravagances along this line?" he asks. "The annual output of pig iron in the United States for 1916-1917 was 40,000,000 tons. This called for 40,000,000 tons of coke, 50 per cent of which was made in gas which either burn the volatile gases or send them off as waste into the air."

Large Waste in Year  
"The sum of waste per annum amounts to approximately 300 billion cubic feet, equivalent to one-half of the total natural gas output of the entire country."

"But we need not go so far from home for a horrible example. Of the coal mined annually in Illinois, approximately 25,000,000 tons are burned in domestic appliances, and something less than that amount in factories and industrial establishments not including the railroads."

"Now, if inventors of domestic heating appliances had set out to assemble an inefficient lot of devices, they could hardly have surpassed their present accomplishment."

"Smoke 'smudging up the flues and passageways,' and 'all creation outside,' pours forth, the professor says, uselessly wasting all smoke-producing energy. 'Smoke producing constituents may be worth only five cents as fuel, but probably worth five dollars in some other form.'"

"This reference to gas and oil," Professor Parr concludes, "may seem to be irrelevant, but let us consider a few items. The modern industrial demand is increasingly urgent for fuels of the liquid and gaseous type. The generation of power by oil-burning, including gasoline-burning engines, in this country already equals if it does not exceed the power generated by solid fuel, or steam engines, and the end is by no means in sight."

"Motor trucks and farm tractors, delivery vehicles and pleasure cars are on the increase to such an extent that in the year past the consumption of gasoline exceeded the yield. The problem of keeping the supply ahead of the demand is already shaping itself as a definite question which must be answered in the near future."

HAS MOST NORTHERN  
POSTOFFICE IN U. S.

Pennase, Minnesota. Now Receives  
Mail Once Each Week—Has  
Population of 150.

Pennase, Minn., April 13.—  
Proud of its recently established  
postoffice, which has the distinc-  
tion of being the farthest north of  
any in the United States, this little  
hamlet, which boasts of 150 in-  
habitants, now receives its mail  
once a week.

Composed of several townships  
of mainland and many small is-  
lands, and separated from Minne-  
sota by the Lake of the Woods on  
the south, it is necessary to em-  
ploy horse and sleigh freighters  
to transfer the post over the  
stretch of ice in winter. During  
the warm summer months, a mo-  
tor boat will be used.

Two days to town, a 24-hour so-  
journ there, and two more days  
for the return trip is the schedule  
of the mail and freight carrier,  
who augments his load with a  
cargo each way.

Situated about 30 miles north  
of latitude 49 degrees, which for  
the most part marks the northern  
boundary of the United States in  
the West, Pennase lies at the fur-  
thest end of Northwest Angle,  
which incidentally is the most  
northerly point in the country.  
Lake of the Woods, which forms  
a portion of Minnesota's northern  
extremity, and the Canadian prov-  
ince of Manitoba, form the Angle's  
southern and western boundaries,  
respectively.

Altho far away from large towns  
and cities, Pennase nevertheless  
boasts of a school, even tho it  
houses but seven students.  
Four small stores make up the  
business enterprises of the village.

## BILL FOR PARTITION

State of Illinois, County of Mor-  
gan—ss.

In the Circuit Court of said Coun-  
ty, May Term, A. D. 1921.  
In Chancery.

William C. Lorton, Marie Lorton  
Sith, Loretta Lorton, Western,  
Berulah Lorton, Cunningham, Har-  
ry L. Smith, Joanna Sarchet and  
May Black, Complainants, vs.  
Benjamin B. Lorton, Eugene L.  
Lorton, James Lorton, Benjamin  
B. Lorton as Administrator of the  
Estate of Robert L. Lorton, De-  
ceased, and James M. Starr, De-  
fendants.

Affidavit of the non-residence  
of James Lorton, and of the un-  
known residence of Eugene L.  
Lorton, two of the defendants  
above named, having been filed in  
the office of the Clerk of the Cir-  
cuit Court of Morgan County, Illi-  
nois, notice is hereby given to the  
said James Lorton and Eugene  
L. Lorton, that a summons is  
issued out of said Court against  
said defendants, returnable on the  
second Monday of May next, as by  
law required, and which said  
suit is still pending and undeter-  
mined in said Court.

Now, unless you, the said James  
Lorton and Eugene L. Lorton,  
shall be and appear before the  
Circuit Court of Morgan County,  
Illinois, on the first day of the  
next term thereof, to be held in  
the Court House in the City of  
Jacksonville, Illinois, on the sec-  
ond Monday of May A. D. 1921  
and plead, answer or demur to said  
complainants' bill of complaint,  
the same and the matters and  
things therein charged and stated,  
and a decree entered against you,  
according to the prayer of said bill.

F. E. Wanamaker,  
Circuit Clerk.

William E. Thompson, Complain-  
ants' Solicitor. April 8-15-22-29

**MEXICAN WAR VETERAN HONORED ON HUNDRETH BIRTHDAY**  
Emanuel J. Oppenheimer, who served as a captain in Co. D, 10th U. S. Infantry during the Mexican War, was presented with a Gold Medal by members of Argonne Post No. 107, Veterans of Foreign Wars, on his anniversary. The photograph shows Commander W. F. Eighmey, of New York City, presenting the medal to Captain Oppenheimer, who is said to be the oldest living war veteran.

## TO CONSTRUCT HIGHEST DAM IN THE WORLD

U. S. Reclamation Service to Begin Construction of Dam Joining Nevada and Arizona.

Washington—The highest dam in the world, to join the states of Nevada and Arizona, and harness turbulent waters of the Colorado river for an extended irrigation in the southwest, is to be constructed in the near future by the United States Reclamation service.

The dam, according to tentative plans, would rise to the unprecedented height of 500 or 600 feet in Boulder Canyon, where granite abutments rise more than 1,000 feet above the water surface. Engineers of the Reclamation Service, afloat on barges, are now boring for bed rock beneath.

A lake varying from thirty to fifty miles in length would be backed up in the Colorado and Virgin river basin, including parts of six states.

The proposed structure would be higher by far than the world's highest dam at present—Arrow-rock Dam, on the Boise River, Idaho, which measures 348 feet—and would top other famous dams in the United States, among the highest of which are:

Highest Dam in U. S.  
Shoshone, on the Shoshone river, Wyoming, 228 feet; Elephant Butte on the Rio Grande, New Mexico, 300 feet; and Roosevelt on the Salt River, Arizona, 290 feet.

Preliminary work on the Boulder Canyon project is being done under authority of congress, which appropriated \$20,000 for investigation. An additional \$75,000 was contributed by local irrigators. Engineers have located a site, and are making borings for foundations. While these are incomplete, bedrock has been located at a number of points and the outlook is favorable, according to Arthur P. Davis, Director of reclamation service.

Interests from the irrigable region are expecting to bring their problem before congress at approaching session, and thru the committee on irrigation seek government aid, it is understood; but the exact nature of their proposal, whether an out and out appropriation, government loan, or extension of credit has not been announced.

River Changes Course.

So unmanageable has the river been in the past, that it has often changed its lower channel. Like a huge elephant with body over seven states it has swung its trunk about thru the soft silt delta, uncontrollable at flood and destructive to canals and levees. So active did the trunk become in 1905 that it entered the California Development Company's Imperial canal, running thru part of Mexico to the Imperial valley, and poured the entire river into the Salton Sink 200 feet below the sea level. It ate out the canal, enlarged Salton Sink and formed a cataract which threatened to work its way back thru the soft land, with great damage. Only the activity of the Southern Pacific railroad, in building a dam across the widening mouth of the canal channel, after a hard fight with the river, were able to swing the channel back again to the Gulf of California.

The Laguna Dam, built in 1909, joining Arizona and California has resisted flood waters, but complaints of broken levees, and later scant water for the rapidly increasing area of irrigated land continue. Complications with Mexico in the Imperial Canal add to the problem, and the entire situation is pressing southwest interests to action.

To Tap Laguna Dam.

In addition to the Boulder Dam project, the Imperial Irrigation District is pushing a plan to tap the Laguna Dam, and build an all American High Line canal on a higher level to irrigate more extensive acreage and avoid Mexican relations.

The Boulder Canyon Dam project, located below the Grand Canyon near Las Vegas, Nevada, where engineers are now having is the most advantageous position

of any projected sites, according to the preliminary report made to congress by the Reclamation Service. A dam there "would intercept most of the drainage of the Colorado river and therefore be a more complete solution of the flood control problem," the report says. "Such reservoir would also be more valuable in the irrigation of lands on the lower river on account of the greater proximity to them, and the consequent possibility of regulating its flow more nearly in accordance with the fluctuating needs. Incidentally it would furnish a large amount of power." A further report on more recent findings is under preparation.

The irrigable lands of the lower Colorado river as listed by the Reclamation Service comprise many valleys and projects, with a total of 1,242,000 acres. They include: Cottonwood Island, Mohave Valley, Chemehuevi Valley, Parker Project, Palo Verde Valley, Palo Verde Mesa, Chucawalla Valley, Cihola Valley, Yuman Project, Imperial Irrigation District, and these extensions of the Imperial Valley; East Side Mesa, Dos Palmas, Coachella Valley, and West Side.

## MAYFLOWER TIMBER IN PEACE PORTAL

To be Encased in Peace Portal Being Erected Across Pacific Highway at Blaine, Washington.

Seattle, Wash.—(By The A. P.)—Timber from the Mayflower has been brought to Seattle to be encased in a great Peace Portal being erected across the Pacific Highway at Blaine, Wash., on the international boundary between Canada and the United States in commemoration of more than 100 years of peace between the two countries. The portal will be dedicated this summer.

The bit of the Pilgrim ship, a small piece of oak, was carried to Seattle in an ancient English chest of handbeaten iron, believed to be a pirate's gold chest of olden days. The chest was taken from a Scotland Yard dungeon and given for the trip by Sir Alfred Thompson, chief of the yard.

Negotiated for Wood.

Impressive ceremonies were held at Buckinghamshire, near London, when the bit from the boat was cut from the old hull, which lies upturned on the banks of the Thames. Samuel Hill, Seattle, president of the Pacific Highway Association, and the leader in the portal construction movement, and Frank Torace, a Seattle good roads advocate, negotiated for the wood and were present when it was taken from the ship.

After the timber was sawed from the hull, the English Quakers, who guard the remains, said that never again would it be disturbed.

Following the cutting from the hull, the piece was taken by Hill and Torace to Belgium and France where it was exhibited before Marshal Joffre, King Albert of Belgium and Cardinal Mercier, Terrance said.

"Marshal Joffre told me he would be in Seattle this summer to attend the dedication of the Peace Portal," Terrance declared.

Probably the most impressive meeting was when the two Seattle men carried the timber into an ancient room in a Ghent monastery, Terrance said. In the same room, according to records, more than 100 years before, there was signed the treaty of Ghent, according to which there were to be no guns or forts along the 3,000 mile boundary between Canada and the United States. And in commemoration of the observance of this treaty the Portal is being built.

Terrance said that so far as can be ascertained the chest in which the timber was brought from England, is 350 years old and was taken from a pirate's ship off the coast of Africa by a British man-of-war.

H. H. Bancroft made a business trip to Springfield Thursday.
